PROFESSIONAL SUMMARY

Director-level technology delivery leader with 20+ years owning end-to-end delivery execution across global banking and enterprise clients. De-facto India Delivery Center lead for three simultaneous banking GCCs (ADP, Charles Schwab, BMO) -- coordinating India-Canada-US teams, managing 35+ engineers, governing vendor SLAs, and reporting delivery outcomes to C-suite stakeholders. Proven builder of delivery engines: scaled SRE and platform engineering organizations from scratch, eliminated 10,000+ manual operational hours, and brought AI platforms into production with SLA commitments. Deep expertise in operational rigor, KPI/KRI governance, AI platform delivery, infrastructure ownership, and continuous improvement (PMI-ACP, 6 Sigma, ITIL). ISB GMP (2022) sharpens P&L thinking and cross-functional leadership. Seeking to formalise delivery center ownership as Director, IDC, reporting to CIO.

CORE COMPETENCIES

Global Delivery Center Leadership | Multi-Function Team Management (35+ Engineers) | AI Platforms CoE & AI Production Delivery | Cross-Regional Coordination (India / Canada / US) | Vendor & Partner Governance (MSP / SLA Enforcement) | KPI / KRI Definition & Operational Rigor | Budget & Delivery Portfolio Governance | Capacity & Workforce Planning | Infrastructure & Site Operations Ownership | Continuous Improvement (PMI-ACP / Lean / 6 Sigma) | DevOps & Platform Engineering Transformation | Executive Stakeholder Management (CXO-Level)

WORK EXPERIENCE

IRIS Software

Sep 2020 -- Present

Sr. Specialist -- Cloud Practice & SRE Lead | India (Clients: ADP, Charles Schwab, BMO)

- **De-facto IDC Delivery Lead (3 Concurrent Banking GCCs):** Served as India-side delivery lead simultaneously for ADP, Charles Schwab, and BMO -- owning delivery outcomes, coordinating India-Canada-US cross-timezone execution, and presenting delivery health, risk, and progress to VP and C-suite stakeholders at each client. Equivalent scope to a captive GCC Director.
- **Team Building at Scale -- SRE Org 4 to 35 (ADP):** Built ADP's SRE organization from 4 to 35 engineers and architects across India, Canada, and the US. Defined hiring strategy, capability roadmap, onboarding standards, on-call governance, and career development. Conducted quarterly enterprise-wide training sessions for up to 200 participants per session.
- **Platform Engineering Build-Out -- 25-Member Team (Charles Schwab):** Built Charles Schwab's Platform Engineering and automation delivery team from scratch -- established foundational SRE practices, reliability reviews, incident governance, runbooks, and cross-platform deployment alignment as part of the TD Ameritrade merger integration programme. Delivered 99.9% release reliability.
- **AI Platforms CoE in Production (BMO):** Designed and deployed production AI platform capabilities on AWS Bedrock and Azure -- GenAI risk summarisation assistants with SLA ownership, event-driven pipelines, and operational monitoring. First AI workloads in production for the BMO engagement, not proof-of-concept.
- **Vendor Governance & Delivery Portfolio Management:** Governed MSP and vendor delivery quality through CPMI (Cloud Platform Maturity Index) operational scorecards, SLA tracking, and structured escalation frameworks across ADP, Schwab, and BMO. Delivered measurable improvements in cloud security, efficiency, and capability maturity; used in executive QBRs.
- **Operational KPIs & Standard Work (ADP):** Defined and governed SLOs, SLIs, and error budgets; established incident response cadence with blameless postmortem culture; reduced MTTR by 40%+ through AIOps-driven automated remediation (Dynatrace + Ansible). Chaos Engineering via Keptn for proactive resilience.
- **High-Throughput Delivery Platform (modeas):** Architected and delivered modeas -- a deployment orchestration platform enabling 200+ builds/deployments per hour across all product domains. Eliminated 10,000+ manual operational hours annually; accelerated deployment cadence by 600%. Kubernetes and Helm orchestrated, IaC-driven.

IRIS Software

Jun 2018 -- Sep 2020

Automation Technology Specialist | Toronto, Canada (Client: Royal Bank of Canada Insurance)

- **Cross-Regional Delivery Governance (India + Toronto):** Governed enterprise-wide DevOps and change management across 250+ applications at RBC Insurance -- standardising deployment workflows, enforcing SOX/GDPR compliance, and ensuring audit-ready change transparency across India-Canada teams.
- **Self-Service Delivery Framework (Robo Deployment):** Designed a self-service CI/CD orchestration platform enabling release pipelines for Windows services, database deployments (SSIS, Oracle, SQL Server), and enterprise workloads. Application onboarding reduced from 5 weeks to 5 hours (98% reduction). Automated artifact retrieval and approval via Python and Ansible.
- **DORA Adoption & Continuous Improvement:** Inducted DORA across RBC Wealth Management and Insurance via Azure DevOps -- Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as primary engineering health metrics reviewed quarterly with VP stakeholders. Measurable improvement in delivery performance and production stability.
- Led enterprise migration of 250+ applications across 60+ teams from CA SCM to GitHub. Contributed to ~$200K in new project acquisitions through pre-sales and delivery leadership at RBC subsidiaries.

IRIS Software

Feb 2017 -- Jun 2018

Automation Architect | Toronto, Canada (Clients: Insurance & Capital Markets)

- Led RPA practice delivery automating 80+ applications and 250+ components across heterogeneous stacks (Java, NodeJS, Kafka, Salesforce, Mainframe). Scaled offshore delivery team for regulated domains.
- Contributed to $478K SOW closure and $180K Capital Markets engagement through technical pre-sales and delivery leadership.

TechMahindra Pvt. Ltd.

Jul 2015 -- Feb 2017

Technology Manager | Noida, India (Client: Adobe)

- Directed cross-functional global engineering teams on large-scale enterprise delivery -- data migration (Informatica to SQL Server), SAP HANA upgrades, and zero-downtime data centre relocation for Adobe. Full plan, execution, and cutover ownership.

Microsoft Corporation

Jul 2007 -- Dec 2014

Sr. SDET -- QA, Automation & Production Engineering | India

- Full delivery and production ownership of Sales & Marketing platforms serving US, EMEA, and APAC -- 99.99% uptime sustained over 7 years. Built and led QA automation frameworks integrated with CI/CD; managed incident response, RCA, and infrastructure administration. Supported 200% user growth through cloud migration and self-healing architectures.

KEY DELIVERY INITIATIVES

ADP SRE -- Delivery Engine Built from Scratch (4 to 35 Engineers)

Team Building -- Delivery Ops -- KPIs -- AIOps

Built ADP's SRE delivery function from 4 to 35 engineers across India, Canada, and the US. Established hiring strategy, onboarding, on-call governance, SLO/SLI KPIs, and blameless postmortem culture. Trained 200+ participants per quarter. MTTR reduced 40%+; AIOps automation (Dynatrace + Ansible) institutionalised. Presented outcomes to C-suite quarterly.

CPMI -- Cloud Platform Maturity Index (Vendor Governance + Portfolio KPIs)

Vendor Governance -- KPI/KRI -- Portfolio Management

Designed and deployed CPMI across ADP, Charles Schwab, and BMO -- an operational scorecard framework for measuring cloud maturity, vendor delivery quality, and cost efficiency. Used in executive QBRs as delivery health dashboard; SLA-linked for vendor accountability. Became IRIS pre-sales differentiator across three banking clients.

BMO AI Platforms -- Production AI CoE Capability

AI Platforms CoE -- AWS Bedrock -- Azure AI -- Production SLA

Established first production AI platform capability for BMO -- GenAI risk summarisation and Q&A assistants on AWS Bedrock and Azure with SLA ownership. Designed event-driven pipeline (BCRG/LTS), coordinated infra and AI SMEs, implemented production monitoring. Reduced manual regulatory analysis effort; live in production with business impact tracked.

Robo Deployment Framework -- Continuous Improvement at Scale (RBC)

Lean Delivery -- Standard Work -- Self-Service -- 98% Reduction

Designed self-service CI/CD orchestration platform for RBC Insurance -- application onboarding from 5 weeks to 5 hours (98% reduction). Python and Ansible automation eliminated manual interventions; SOX/GDPR-compliant change evidence built in. Migrated 250+ applications across 60+ teams to GitHub -- next-generation self-service provisioning at scale.

EDUCATION

General Management Program (GMP) -- ISB Hyderabad 2022

Masters in Artificial Intelligence -- Woolf University 2024

M.Sc in Computer Science -- Osmania University 2002

B.Sc in Electronics -- Kakatiya University 2000

CERTIFICATIONS

PMI Agile Certified Professional (PMI-ACP) -- Lean / Agile delivery frameworks

6 Sigma Yellow Belt -- Continuous improvement, waste elimination 2016

ITIL(R) Certificate in IT Service Operations -- Incident / Problem / Change management

Microsoft Certified: Azure Solutions Architect Expert (AZ-305) 2026

AWS Certified Solutions Architect -- Associate (SAA-C01) 2026

Google Cloud Certified -- Professional Cloud Architect (PCA) 2026

Microsoft Certified: Azure AI Engineer Associate (AI-102)

Certified Kubernetes Application Developer (CKAD) 2025

TECHNICAL SKILLS

Delivery & Operations: Delivery center management, capacity planning, portfolio governance, run/grow ratio management, vendor SLA enforcement, KPI/KRI dashboards, operational scorecards (CPMI)

AI & Platform: AI Platforms CoE, GenAI production delivery (AWS Bedrock, Azure AI), AIOps, MLOps, Python, Go, Bash; MSc Artificial Intelligence; AI-102, DP-100

Cloud & Infrastructure: AWS (CDK, ECS Fargate, Lambda, Bedrock), Microsoft Azure (AZ-305), GCP (PCA), Kubernetes (CKAD), Docker, Helm, Terraform, Ansible, ServiceNow

Continuous Improvement: Lean, Agile, PMI-ACP, 6 Sigma Yellow Belt, DORA metrics, blameless postmortem culture, standard work, ITIL-aligned ITSM

Observability & SRE: SLIs/SLOs, Error Budgets, Prometheus, Grafana, Dynatrace, Splunk, Chaos Engineering (Keptn), MTTR reduction

DevOps & CI/CD: GitHub Actions, Jenkins, UrbanCode, SonarQube, JFrog Artifactory, SAST/DAST/IAST, Azure DevOps, shift-left security integration
