PROFESSIONAL SUMMARY

20+ year engineering leader who builds AI and Data DevSecOps functions from scratch. At IRIS, designed and operationalized production support operating models for Tier-1 banking clients (ADP, Charles Schwab, BMO) -- L1/L2/L3 escalation frameworks, SLA/OLA governance, incident command structures, RCA programmes, and Transition-to-Support intake models covering AI/ML, Data, and cloud platform deliveries. Scaled SRE teams from 4 to 40 engineers; reduced MTTR by 40%+ through automated remediation and blameless postmortem culture. Deployed GenAI assistants on AWS Bedrock with production monitoring runbooks and escalation protocols. Multi-cloud certified (Azure AZ-305, GCP PCA, AWS SAA), ITIL-aligned, Masters in Artificial Intelligence (Woolf University, 2024), General Management Programme (ISB Hyderabad, 2022).

CORE COMPETENCIES

AI & Data Platform DevSecOps | Production Support Operating Model | L1/L2/L3 Escalation Framework | SLA / OLA / KPI Governance | Incident Command & RCA Culture | Transition-to-Support Governance | MLOps & AI Platform Operations | SRE Practice Leadership | ServiceNow & ITSM Toolchain | Blameless Postmortem Culture | Chaos Engineering (Keptn) | Cloud-Native Observability

WORK EXPERIENCE

IRIS Software | Clients: ADP, Charles Schwab, BMO — Sep 2020 - Present

Sr. Specialist -- Cloud Practice & SRE Lead | India

- Designed and operationalized **L1/L2/L3 support framework** with RACI ownership, escalation paths, and SLA-aligned coverage model for 35-person SRE function at ADP -- embedding structured incident management across the engineering organisation.
- Defined **Transition-to-Support intake model** and onboarding governance for Charles Schwab -- establishing "production ready" criteria across reliability, observability, and runbook completeness before new platform solutions entered support scope.
- Reduced MTTR by **40%+** through automated remediation (Dynatrace + Ansible) and blameless postmortem-driven continuous improvement; integrated Dynatrace alerts with ServiceNow for evidence-backed auto-ticket creation and assignment.
- Deployed Prometheus, Grafana, and Dynatrace for full-stack observability -- real-time alerting, root cause analysis, and proactive bottleneck identification across ADP's multi-cloud platform.
- Implemented ITIL-aligned incident, problem, and change management -- structured RCA workflows, cross-team postmortems, measurable improvements in change success rate and incident frequency.
- Deployed **GenAI assistants on AWS Bedrock** for BMO risk summarisation and Q&A (BCRG/LTS pipelines); established AI/ML production monitoring runbooks and escalation protocols for post-deployment operational stability.
- Established Chaos Engineering (Keptn) -- proactively identifying fault scenarios and hardening platform reliability under real-world failure conditions.
- Scaled ADP SRE from **4 to 40 engineers** across India, Canada, and the US; built Charles Schwab's 18-member Platform Engineering team from the ground up; presented reliability outcomes to C-suite at ADP, Schwab, and BMO.
- Delivered **modeas**: 200+ builds/deployments per hour, eliminating 10,000+ manual operational hours annually and improving deployment cadence by 600%.
- Led on-premise to AWS migration for BMO (CDK, ECS Fargate, Lambda, HA/DR); drove AWS FinOps rightsizing; architected Cloud Platform Maturity Index (CPMI) tracking cloud capability across three clients.

IRIS Software | Client: Royal Bank of Canada Insurance — Jun 2018 - Sep 2020

Automation Technology Specialist | Toronto, Canada

- Established SRE principles within RBC's DevSecOps programme -- observability standards, incident classification frameworks, and reliability-focused deployment gates across 250+ applications.
- Inducted DORA framework (Deployment Frequency, Lead Time, CFR, MTTR) via Azure DevOps; established **SLA/OLA governance model** with KPI dashboards and executive reporting forums across 250+ applications and 60+ teams.
- Enabled SAST, DAST, and IAST scanning across CI/CD pipelines (SonarQube, JFrog Artifactory, Jenkins, GitHub) enforcing shift-left security and SOX/GDPR compliance.
- Designed the **Robo Deployment Framework** -- reducing application onboarding from 5 weeks to 5 hours (98% reduction) across 250+ apps and 60+ teams; governed DevOps and change management with audit-ready change transparency.

IRIS Software | Clients: Insurance & Capital Markets — Feb 2017 - Jun 2018

Automation Architect | Toronto, Canada

- Designed fault-tolerant container-orchestrated deployment pipelines (Kubernetes, Helm) for zero-downtime rollouts; led RPA practice automating 80+ applications across capital markets platforms.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET -- QA, Automation & Production Engineering | India

- Dual mandate as Sr. SDET and Production Engineering owner for Sales & Marketing platforms serving US, EMEA, and APAC -- sustaining **99.99% uptime** over 7 years with zero customer-impacting incidents.
- Owned incident response, RCA, and cross-team coordination end-to-end; defined reliability targets and error budgets aligned to global business outcomes.

Earlier: Technology Manager, TechMahindra (Adobe) 2015-2017 | Sr. Test Engineer, Semantic Space Technologies (Bank of America) 2005-2007 | Software Consultant, DRDO 2002-2004

KEY PROJECTS

AI/Data DevSecOps Operating Model -- ADP & Charles Schwab

BANKING

Built L1/L2/L3 support frameworks, Transition-to-Support intake governance, SLA/OLA dashboards, and blameless postmortem culture for two Tier-1 banking clients from scratch.

ServiceNow | Dynatrace | Prometheus | Grafana | Ansible | Keptn | ITIL

modeas High-Throughput Deployment Platform

PLATFORM

200+ builds/deployments per hour; eliminated 10,000+ manual ops hours/year; 600% deployment cadence improvement.

Jenkins | Ansible | Kubernetes | Terraform | Azure DevOps

BMO GenAI Assistants -- Production Operations

GENAI / MLOPS

Deployed risk summarisation and Q&A GenAI assistants on AWS Bedrock; established AI/ML production monitoring runbooks and escalation protocols for post-deployment stability.

AWS Bedrock | Python | BCRG/LTS Pipelines | CloudWatch

Robo Deployment Framework -- RBC Insurance

DEVSECOPS

98% onboarding reduction (5 weeks to 5 hours) across 250+ apps and 60+ teams; SOX/GDPR-compliant change evidence pipelines.

PowerShell | Python | Ansible | GitHub | Jenkins | UrbanCode

EDUCATION

Masters in Artificial Intelligence	Woolf University	2024
General Management Programme	ISB Hyderabad	2022
M.Sc Computer Science	Osmania University	2002
B.Sc Electronics	Kakatiya University	2000

CERTIFICATIONS

ITIL -- IT Service Operations	AXELOS	
Azure Solutions Architect Expert (AZ-305)	Microsoft	2026
AWS Solutions Architect Associate	Amazon	2026
GCP Professional Cloud Architect	Google	2026
Certified Kubernetes Developer (CKAD)	CNCF	2025
Azure AI Engineer (AI-102) & Data Scientist (DP-100)	Microsoft	
PMI Agile Certified Professional (PMI-ACP)	PMI	

TECHNICAL SKILLS

ITSM & Incident Mgmt: ServiceNow, ITIL, Jira, Azure DevOps **Observability:** Dynatrace, Prometheus, Grafana, Splunk, MS AppInsights, AppDynamics

Cloud & DevOps: AWS, Azure, GCP, Kubernetes (CKAD), Docker, Helm, Terraform, Ansible

DevSecOps & CI/CD: SonarQube, JFrog Artifactory, GitHub Actions, Jenkins, UrbanCode, SAST/DAST/IAST

AI/ML Platform: AWS Bedrock, Azure AI (AI-102), AIOps, MLOps, DP-100 **Languages:** Python, Go, PowerShell, Bash, Groovy, C#
