PROFESSIONAL SUMMARY

20+ year engineering leader who transforms DevOps organisations toward predictive pipelines and SRE-based operating models. At IRIS, led SRE practice builds from scratch for Tier-1 banking clients (ADP, Charles Schwab, BMO) -- establishing SLOs, error budgets, chaos engineering, and automated remediation that cut MTTR by 40%+. Directed containerisation and cloud migration programmes for large-scale applications on AWS, Azure, and GCP; delivered a containerised deployment platform handling 200+ builds/hour. Scaled engineering teams from 4 to 40 and built 18-member orgs from zero. At Microsoft, owned SaaS production operations for global Sales & Marketing platforms sustaining 99.99% uptime over 7 years. Multi-cloud certified (Azure AZ-305, GCP PCA, AWS SAA), CKAD-certified, ITIL-aligned, Masters in Artificial Intelligence (Woolf University, 2024), General Management Programme (ISB Hyderabad, 2022).

CORE COMPETENCIES

SRE Transformation & Predictive Pipelines | Containerisation & Cloud Migration | SaaS Production Operations | DevOps Engineering Leadership | CI/CD Platform Design | OKR-Driven Roadmap Delivery | Team Building & Engineering Culture | Chaos Engineering (Keptn) | SLO / SLI / Error Budget Governance | Shift-Left Security (DevSecOps) | Cloud-Native Observability | Executive Stakeholder Reporting

WORK EXPERIENCE

IRIS Software | Clients: ADP, Charles Schwab, BMO — Sep 2020 - Present

Sr. Specialist -- Cloud Practice & SRE Lead | India

- Led **organisational transformation towards predictive pipelines and SRE-based model** at ADP -- established SLOs/SLIs, error budgets, chaos engineering (Keptn), and automated remediation (Dynatrace + Ansible) reducing MTTR by **40%+**; enforced blameless postmortem culture across a 35-person engineering function.
- Designed and delivered **modeas**: a containerised, pipeline-driven deployment platform handling **200+ builds/deployments per hour** -- eliminating 10,000+ manual ops hours annually and accelerating deployment cadence by 600%.
- Directed containerisation and cloud migration of large-scale business applications for BMO on AWS (CDK, ECS Fargate, Lambda) with HA/DR; led GCP landing zone preparation and cloud-native migration POCs at Charles Schwab as part of the TD Ameritrade merger integration.
- Deployed Prometheus, Grafana, and Dynatrace for full-stack observability -- real-time alerting, root cause analysis, and proactive bottleneck identification; deployed GenAI assistants on AWS Bedrock for BMO with AI/ML production monitoring and operational runbooks.
- Drove AWS FinOps rightsizing for BMO and architected the **Cloud Platform Maturity Index (CPMI)** -- an OKR-linked framework tracking cloud capability milestones with capacity and cost projections, presented to VP/C-suite at ADP, Schwab, and BMO quarterly.
- Implemented ITIL-aligned incident, problem, and change management with structured RCA workflows; governed MSP and vendor delivery quality through SLA scorecards and escalation frameworks.
- Enabled SAST, DAST, and IAST scanning as core DevSecOps gates across CI/CD pipelines -- integrating SonarQube, JFrog Artifactory, Jenkins, and GitHub to enforce shift-left security across multi-stack application workloads.
- Scaled ADP SRE from **4 to 40 engineers** across India, Canada, and the US; built Charles Schwab's 18-member Platform Engineering team from the ground up; conducted quarterly training for 200+ participants scaling DevOps capability across three banking clients.

IRIS Software | Client: Royal Bank of Canada Insurance — Jun 2018 - Sep 2020

Automation Technology Specialist | Toronto, Canada

- Established SRE principles within RBC's DevSecOps programme -- observability standards, incident classification frameworks, and reliability-focused deployment gates across 250+ applications; inducted DORA framework (Deployment Frequency, Lead Time, CFR, MTTR) with executive KPI dashboards across 60+ teams.
- Designed the **Robo Deployment Framework** (PowerShell) -- reducing application onboarding from 5 weeks to 5 hours (98% reduction); governed DevOps and change management across 250+ apps with SOX/GDPR-compliant audit-ready pipelines.
- Led enterprise migration of 250+ applications across 60+ teams from CA SCM/Harvest to GitHub, enabling modern CI/CD, agile collaboration, and self-service provisioning at scale.

IRIS Software | Clients: Insurance & Capital Markets — Feb 2017 - Jun 2018

Automation Architect | Toronto, Canada

- Designed fault-tolerant, container-orchestrated deployment pipelines (Kubernetes, Helm) for zero-downtime rollouts across capital markets platforms; led RPA practice automating 80+ applications; contributed to $478K SOW closure.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET -- QA, Automation & Production Engineering | India

- Production Engineering owner for Sales & Marketing **SaaS platforms** serving US, EMEA, and APAC -- sole accountability for quality and operational lifecycle, sustaining **99.99% uptime** over 7 years with zero customer-impacting incidents and absorbing 200% user growth without reliability degradation.
- Owned all non-functional objectives (performance, availability, scalability, security), incident response, RCA, and cross-team coordination; built CI/CD-integrated QA automation frameworks and defined reliability targets and error budgets aligned to global business outcomes.

Earlier: Technology Manager, TechMahindra (Adobe) 2015-2017 | Sr. Test Engineer, Semantic Space Technologies (Bank of America) 2005-2007 | Software Consultant, DRDO 2002-2004

KEY PROJECTS

ADP SRE Transformation -- Predictive Pipeline Build

SRE / PLATFORM

Took ADP from reactive incident posture to predictive SRE model: SLOs/SLIs, error budgets, chaos engineering, automated remediation. MTTR -40%. Org scaled 4 to 40 engineers.

Dynatrace | Prometheus | Grafana | Ansible | Keptn | ServiceNow | Python

BMO Cloud Migration -- AWS (ECS Fargate / Lambda)

CLOUD MIGRATION

End-to-end on-premise to AWS migration with CDK-enabled pipelines, HA/DR architecture, and FinOps rightsizing. Schwab: GCP landing zone for TD Ameritrade merger integration.

AWS CDK | ECS Fargate | Lambda | GCP | Terraform | Kubernetes

modeas -- Containerised Delivery Platform

CI/CD / PLATFORM

200+ builds/deployments per hour; 10,000+ manual ops hours eliminated per year; 600% deployment cadence improvement -- containerised, pipeline-driven architecture built for high-frequency SaaS delivery.

Jenkins | Ansible | Kubernetes | Helm | Terraform | Azure DevOps

Robo Deployment Framework -- RBC Insurance

DEVSECOPS

98% onboarding reduction (5 weeks to 5 hours) across 250+ apps and 60+ teams. SOX/GDPR-compliant change pipelines. DORA KPI governance with executive reporting forums.

PowerShell | Python | Ansible | GitHub | Jenkins | Azure DevOps

EDUCATION

Masters in Artificial Intelligence	Woolf University	2024
General Management Programme (GMP)	ISB Hyderabad	2022
M.Sc Computer Science	Osmania University	2002
B.Sc Electronics	Kakatiya University	2000

CERTIFICATIONS

ITIL -- IT Service Operations	AXELOS	
Certified Kubernetes Developer (CKAD)	CNCF	2025
Azure Solutions Architect Expert (AZ-305)	Microsoft	2026
AWS Solutions Architect Associate	Amazon	2026
GCP Professional Cloud Architect	Google	2026
Azure AI Engineer (AI-102) & Data Scientist (DP-100)	Microsoft	
PMI Agile Certified Professional (PMI-ACP)	PMI	

TECHNICAL SKILLS

Cloud & DevOps: AWS, Azure, GCP, Kubernetes (CKAD), Docker, Helm, Terraform, Ansible, AWS CDK

Observability & SRE: Dynatrace, Prometheus, Grafana, Splunk, MS AppInsights, AppDynamics, Keptn

CI/CD & DevSecOps: Jenkins, GitHub Actions, Azure DevOps, UrbanCode, SonarQube, JFrog Artifactory, SAST/DAST/IAST

ITSM: ServiceNow, ITIL, Jira, DORA framework **Languages:** Python, Go, PowerShell, Bash, Groovy, C#

AI/ML Platform: AWS Bedrock, Azure AI (AI-102), AIOps, MLOps
