Russell Investments -- Mumbai

Hiring Team -- Director, Head of Infrastructure, India
Goregaon East, Mumbai

Dear Hiring Team,

Russell Investments is asking for someone to own the Mumbai infrastructure estate from the ground up -- building the regional team, aligning with global standards, and ensuring 24x7 reliability for trading and analytics systems that operate at \$962 billion AUM scale. I have done this work, in regulated financial services, across three continents.

At **ADP**, I built a regional infrastructure and SRE practice from four people to 40 engineers across India, Canada, and the US -- establishing on-call governance, DR/BCP frameworks, and vendor accountability structures that reduced MTTR by over 40%. At **BMO**, I led an on-premises to hybrid cloud migration with RTO/RPO-aligned disaster recovery built in from day one: Terraform, AWS CDK, ECS Fargate, and automated failover validated under production load. At **RBC**, I owned infrastructure delivery, certificate management, vulnerability governance, and SOX/GDPR-compliant change control across 250+ applications -- the same regulatory rigour that applies to Russell's trading and reporting infrastructure.

Your JD calls for expertise in **Microsoft Azure, Terraform, Kubernetes, and GitLab** -- I hold the Azure Solutions Architect Expert (AZ-305), Certified Kubernetes Application Developer (CKAD), and have deployed Terraform-driven IaC at scale across banking clients. The VMware and enterprise networking layer (Cisco, Palo Alto) is territory I have operated in across client environments and will come up to speed on quickly within the Mumbai estate.

I am based in Hyderabad and **committing to relocate to Mumbai** for this role. The EMEA shift aligns well with how I have operated -- supporting US and EMEA stakeholders has been the norm across ADP, Schwab, and BMO engagements. The opportunity to build the India infrastructure foundation for a globally recognised investment firm, reporting directly to the Global Head, is exactly the mandate I am looking for at this stage of my career.

Sincerely,

Pavan Kumar Nayakanti
