

PAVAN KUMAR NAYAKANTI

AIOps Transformation & SRE Leader | Signal-Driven Operations | Multi-Cloud | FinTech | Global Team Builder

+91-9440493097 | pavan.nayakanti@hotmail.com | linkedin.com/in/pavan-nayakanti | github.com/pavannayakanti | Hyderabad, India

SUMMARY

SRE and AIOps transformation leader with 20+ years building signal-driven, self-healing operations across FinTech and global financial services -- ADP, Charles Schwab, BMO, and RBC. Transitioned two SRE organisations from reactive, human-driven incident response to AI-supervised, automated remediation: scaled ADP's SRE org from 4 to 40 engineers, reduced MTTR by 40%+ via Dynatrace signal correlation + Ansible automated remediation, and deployed production GenAI systems with audit-trail guardrails in a regulated banking environment (BMO). Holds MSc in Artificial Intelligence and certified across AWS (SAA), Azure (AZ-305), GCP (PCA), Kubernetes (CKAD), and iSRE -- the full technical stack for owning AI-enabled, autonomous infrastructure and service operations at VP level.

KEY ACHIEVEMENTS

- **Reactive to Autonomous: ADP SRE**

Transformed alert-flood, human-triage culture to signal-prioritised, automated remediation. MTTR -40%+. Org scaled 4 to 40 engineers across 3 geographies.
- **Auditable AI in Regulated Banking**

Deployed GenAI risk-summarisation on AWS Bedrock for BMO with full audit-trail guardrails, human-review escalation, and regulatory-compliant AI governance.
- **Self-Healing Platform Delivery**

modeas: 200+ builds/deployments per hour; 10,000+ manual ops hours eliminated annually. Keptn chaos engineering hardened reliability under real-world fault conditions.
- **99.99% Uptime at Microsoft Scale**

Sustained 99.99% availability over 7 years on globally distributed financial platforms serving US, EMEA, and APAC - with zero customer-impacting incidents over a sustained period.

EXPERIENCE

Sr. Specialist -- Cloud Practice & SRE Lead

IRIS Software -- India (Clients: ADP, Charles Schwab, BMO)

Sep 2020 - Present | India / Canada / US

- AIOps transformation (ADP):** Replaced alert-volume-driven incident response with signal-prioritised, automated remediation workflows via Dynatrace correlation + Ansible -- reducing MTTR by **40%+** across ADP's FinTech platform.
- Defined and governed **SLOs, SLIs, and error budgets** across multi-client cloud platforms (BMO, ADP, Charles Schwab), establishing reliability governance and executive reporting cadence aligned to financial services commitments.
- Implemented **Chaos Engineering (Keptn)** for ADP SRE -- proactively identifying fault scenarios and governing self-healing automation with structured human override for novel failure patterns.
- Deployed full-stack observability (Prometheus + Grafana + Dynatrace) -- real-time telemetry, proactive bottleneck identification, and end-to-end signal-to-ITSM-to-automated-execution workflows.
- Deployed **production GenAI systems on AWS Bedrock** for BMO with audit-trail guardrails, human-review escalation, and regulatory-compliant governance -- risk summarisation and Q&A via BCRG/LTS pipelines.
- AI-assisted capacity optimisation (BMO):** Analysed demand signals to rightsize cloud workloads, align capacity to actual consumption, and reduce cloud waste across the AWS estate via FinOps practices.
- Scaled ADP's SRE organisation from **4 to 40 engineers** across India, Canada, and the US -- building on-call governance, regional handoff protocols, and blameless postmortem culture with global consistency.
- Built **Charles Schwab's 18-member Platform Engineering team** from zero -- SRE gates, reliability reviews, incident governance; release reliability at 99.9% within one quarter of go-live.
- Architected end-to-end AWS cloud migration for BMO CCB -- CDK-enabled pipelines across ECS Fargate and Lambda with **HA/DR and RTO/RPO alignment** from day one.
- Led multi-cloud strategy across **AWS, Azure, and GCP** -- landing zones, IaC (Terraform + CDK + Helm), Kubernetes orchestration, and DevSecOps compliance at global FinTech scale.
- Conducted quarterly enterprise SRE training for up to **200 participants**; presented reliability strategies and incident outcomes directly to VP and C-suite stakeholders at ADP, Schwab, and BMO.

Automation Technology Specialist

[IRIS Software -- Toronto, Canada \(Client: Royal Bank of Canada Insurance\)](#)

Jun 2018 - Sep 2020 | Toronto, Canada

- Established **SRE principles and observability standards** within RBC's DevSecOps programme -- incident classification frameworks and reliability-focused deployment gates across 250+ applications.
- Inducted **DORA framework** across RBC Wealth Management and Insurance (Azure DevOps) -- Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as primary engineering health metrics.
- Designed the **Robo Deployment Framework** -- change-aware CI/CD orchestration with audit-trail approval workflows and SOX/GDPR-compliant evidence pipelines; reduced onboarding from 5 weeks to 5 hours (98% reduction).
- Governed **change-aware operations** across 250+ apps and 60+ teams -- dependency-aware rollout sequencing, drift detection, and audit-ready change transparency at banking scale.
- Enabled SAST, DAST, and IAST scanning (SonarQube, JFrog, Jenkins, GitHub) -- shift-left security and DevSecOps compliance embedded into CI/CD pipelines.

Automation Architect

[IRIS Software -- Toronto, Canada \(Clients: Insurance & Capital Markets\)](#)

Feb 2017 - Jun 2018 | Toronto, Canada

- Designed fault-tolerant, **container-orchestrated deployment pipelines** using Kubernetes and Helm -- zero-downtime rollouts across capital markets platforms.
- Led RPA practice: automated 80+ applications and 250+ components across Java, NodeJS, Kafka, Salesforce, and Mainframe; pioneered Cognitive Process Automation (CPA/IPA) frameworks.

Technology Manager

[TechMahindra Pvt. Ltd. -- Noida, India \(Client: Adobe\)](#)

Jul 2015 - Feb 2017 | Noida, India

- Architected and delivered **zero-downtime business application migration** during Adobe's data centre relocation -- owned full plan, execution, and cutover across all production workloads.
- Led SAP HANA upgrades and data migration (Informatica to SQL Server 2012) at enterprise scale with minimal service disruption.

Sr. SDET -- Production Engineering Owner

[Microsoft Corporation -- India](#)

Jul 2007 - Dec 2014 | India

- Dual mandate: full quality and operational lifecycle for Sales & Marketing platforms serving US, EMEA, and APAC -- achieved **99.99% uptime over 7 years** with zero customer-impacting incidents.
- Owned end-to-end production operations: incident response, RCA, infrastructure administration (Windows + Linux), non-functional objectives (performance, availability, scalability, security).
- Modernised platforms through cloud migration and self-healing architectures, supporting **200% user growth** without reliability degradation.

Senior Software Testing Engineer

[Semantic Space Technologies -- India \(Client: Bank of America\)](#)

Jan 2005 - Jun 2007 | India

- Sole L3 Analyst from India for Statusmart, supporting **3,000+ sales team members** at CFC / Bank of America -- release management, QA, and incident/defect management via Remedy.

Software Consultant

[Defense Electronics Research Laboratory \(DRDO\) -- India](#)

Oct 2002 - Dec 2004 | India

- Software consulting for **defence-grade applications** requiring mission-critical reliability and high-security standards.

EDUCATION

Masters in Artificial Intelligence

[Woolf University](#)

2024

General Management Program (GMP)

[ISB Hyderabad](#)

2022

M.Sc in Computer Science

[Osmania University](#)

2002

B.Sc in Electronics

[Kakatiya University](#)

2000

CERTIFICATIONS

Certified SRE (iSRE)

International SRE Foundation

Microsoft Certified: Azure AI Engineer Associate (AI-102)

Microsoft

AWS Certified Solutions Architect -- Associate (SAA-C01)

Amazon Web Services -- 2026

Google Cloud Certified -- Professional Cloud Architect (PCA)

Google Cloud -- 2026

Microsoft Certified: Azure Solutions Architect Expert (AZ-305)

Microsoft -- 2026

Certified Kubernetes Application Developer (CKAD)

Cloud Native Computing Foundation -- 2025

ITIL Certificate in IT Service Operations
