## PROFESSIONAL SUMMARY

SRE & Platform Engineering leader who builds DevOps/SRE Centers of Excellence from scratch. Scaled ADP's reliability organisation from 4 to 35 engineers; architected the Cloud Platform Maturity Index (CPMI) -- a CoE governance framework deployed across three Fortune 500 banking clients; reduced MTTR by 40%+ via AIOps-driven automated remediation. 22 years defining SLO/SLI/error budget frameworks, standardising CI/CD and IaC at enterprise scale, embedding DevSecOps, and presenting reliability strategy to VP and C-suite stakeholders. Ready to own the full DevOps/SRE CoE charter at a fast-scaling digital services organisation.

## CORE COMPETENCIES

DevOps/SRE CoE Leadership

SLO/SLI/Error Budget Governance

Enterprise Observability Architecture

Platform Engineering & IDP Adoption

CI/CD Standardisation & GitOps

DevSecOps Integration

Cloud Architecture (AWS/Azure/GCP)

Blameless Postmortem Culture

FinOps & Cloud Cost Optimisation

RFP/RFI Solutioning & Pre-Sales

## WORK EXPERIENCE

### IRIS Software

Sep 2020 - Present

**Sr. Specialist - Cloud Practice & SRE CoE Lead** | India (Clients: ADP, Charles Schwab, BMO)

- **Built two DevOps/SRE CoEs from zero:** scaled ADP's SRE organisation from 4 to 35 engineers across India, Canada, and the US; assembled Charles Schwab's 18-member Platform Engineering team with no prior foundation.
- **Architected CPMI (Cloud Platform Maturity Index)** -- a CoE governance framework with reusable standards and maturity benchmarks across security, cost optimisation, automation, and resilience -- deployed across all three clients.
- **Defined SLO/SLI/error budget frameworks** across multi-client cloud platforms; reduced MTTR by 40%+ through AIOps-driven automated remediation (Ansible + Python) and structured blameless postmortem programmes.
- **Architected enterprise observability:** Prometheus, Grafana, and Dynatrace for full-stack alerting, root-cause analysis, and proactive bottleneck identification; established Chaos Engineering practices using Keptn.
- **Standardised CI/CD and IaC at scale:** built modeas -- a deployment platform handling 200+ builds/hour, eliminating 10,000+ manual ops hours annually (600% cadence improvement); Terraform-driven IaC, self-healing systems at 99.9% reliability.
- Embedded DevSecOps and ITIL-aligned incident/change management across all client platforms; presented reliability strategy and SRE outcomes directly to VPs and C-suite at ADP, Charles Schwab, and BMO.
- Ran quarterly enterprise-wide SRE/DevOps upskilling sessions for up to 200 participants; deployed GenAI risk-summarisation assistants on Azure & AWS for BMO (BCRG/LTS pipelines).

### IRIS Software

Jun 2018 - Sep 2020

**Automation Technology Specialist** | Toronto, Canada (Client: Royal Bank of Canada Insurance)

- **Established SRE and DevSecOps principles** within RBC's DevSecOps programme -- observability standards, SOX/GDPR compliance gates, and reliability-focused deployment gates across 250+ applications.
- **Designed the Robo Deployment Framework** -- Kubernetes-native CI/CD orchestration reducing application onboarding from 5 weeks to 5 hours (98% reduction); migrated 250+ applications across 60+ teams from CA SCM/Harvest to GitHub.
- Contributed to ~\$200K in new project acquisitions through pre-sales and delivery leadership at RBC subsidiaries.

### IRIS Software

Feb 2017 - Jun 2018

**Automation Architect** | Toronto, Canada (Clients: Insurance & Capital Markets)

- Designed Kubernetes/Helm container-orchestrated deployment pipelines for zero-downtime rollouts; led RPA practice automating 80+ applications and contributed to \$478K + \$180K SOW closures.

### Microsoft Corporation

Jul 2007 - Dec 2014

**Sr. SDET -- Automation Architect** | India

- Maintained 99.99% uptime over 7 years for global marketing platforms via proactive SLI monitoring, automated recovery, and postmortem-driven improvement cycles; supported 200% user growth through cloud migration and self-healing architectures.

**TechMahindra** -- Technology Manager (2015-2017): Led global engineering teams on enterprise DevOps transformation and CI/CD adoption. **Semantic Space Technologies / DRDO / NFC** (2002-2007): Software engineering, L3 support, and defence-grade systems development.

KEY PROJECTS

Cloud Platform Maturity Index (CPMI) CoE Framework

DevOps/SRE CoE governance framework -- maturity benchmarks across security, cost optimisation, automation, and resilience. Deployed across ADP, Charles Schwab, and BMO with standardised reference implementations and reusable assets. Terraform · AWS · Azure · Prometheus · Grafana · Dynatrace · Python

modeas -- High-Throughput Deployment Platform CI/CD & IaC

Enterprise CI/CD platform handling 200+ builds/deployments per hour -- eliminating 10,000+ operational hours annually (600% cadence improvement) with self-service pipelines and automated quality gates. Kubernetes · Helm · Terraform · Jenkins · GitHub Actions · Python · Ansible

Robo Deployment Framework (RBC) Platform Engineering

Kubernetes-native CI/CD orchestration enabling self-service pipelines across 250+ applications. Reduced onboarding from 5 weeks to 5 hours (98% reduction) with embedded SOX/GDPR compliance and automated audit evidence. Kubernetes · Docker · Python · Ansible · Splunk · DevSecOps

EDUCATION

|                                                       |      |
|-------------------------------------------------------|------|
| Masters in Artificial Intelligence — Woolf University | 2024 |
| General Management Program (GMP) — ISB Hyderabad      | 2022 |
| M.Sc in Computer Science — Osmania University         | 2002 |

CERTIFICATIONS

CKAD (Certified Kubernetes Application Developer, 2025) | AZ-305 Azure Solutions Architect Expert (2026) | AWS SAA-C01 Solutions Architect Associate (2026) | iSRE Certified SRE | AI-102 Azure AI Solution Design (2025) | ITIL Certificate in IT Service Operations | PMI-ACP

TECHNICAL SKILLS

Cloud & IaC: AWS, Azure, GCP · Terraform, CloudFormation, Ansible, ARM · Kubernetes, Docker, Helm  
Observability: Prometheus, Grafana, Dynatrace, Splunk, OpenTelemetry, MS AppInsights · SLI/SLO, Error Budgets, Chaos Engineering (Keptn)  
CI/CD & Security: GitHub Actions, GitLab CI, Jenkins, Azure DevOps, Argo CD · DevSecOps, SOX/GDPR, policy-as-code  
Programming & AI: Python, Go, Bash, PowerShell · GenAI (Azure & AWS), AIOps, MLOps
