EXPERIENCE

Sr. Specialist - Cloud Practice & SRE Lead

IRIS Software – India (Clients: ADP, Charles Schwab, BMO)

Sep 2020 – Present Hyderabad, India

- Conceptualised and operationalised the **Cloud Platform Maturity Index (CPMI)** and **DevOps-as-a-Service** product frameworks – governing digital infrastructure capability, automation maturity, and cloud readiness across ADP, Charles Schwab, and BMO as structured, measurable products.
- Established **three-way partnerships** between client CIO teams, platform delivery teams, and infrastructure providers – acting as the voice of the consumer to align infrastructure services with business demand and engineering standards.
- Organised and administered **quarterly planning and sprint review cadences** for a 35-member SRE organisation, embedding structured delivery rhythms and feedback loops across multi-client engagements.
- Coached and trained infrastructure engineers at scale – delivered **quarterly 20-hour sessions for up to 200 participants**, recognised as **IRIS Certified Trainer Q2 & Q3 2024**; guided teams to adopt lightweight agile practices in engineering delivery.
- Defined and governed **SLI/SLO metrics and KPI dashboards** in partnership with ITSM operations – built vendor scorecards, SLA tracking, and structured escalation frameworks to measure and improve digital infrastructure performance.
- Governed MSP partner delivery (HCL-equivalent model) through outcome-based scorecards, shifting relationships from ticket-volume accountability to business-aligned service quality.
- Orchestrated internal and external communication loops – structured postmortem feedback, cross-team RCA workflows, and C-suite reliability reporting for VP and CIO stakeholders at ADP, Charles Schwab, and BMO.
- Delivered the **modeas high-throughput deployment platform** (200+ builds/hour), enabling self-service infrastructure product delivery and eliminating 10,000+ manual operational hours annually.
- Scaled the ADP SRE organisation from 4 to 40 engineers across India, Canada, and the US – built Charles Schwab's 18-member Platform Engineering team from the ground up.
- Deployed GenAI-based assistants (Azure & AWS) for BMO – reducing manual analysis effort and accelerating insights for risk and compliance teams.

Automation Technology Specialist

IRIS Software – Toronto, Canada (Client: Royal Bank of Canada Insurance)

Jun 2018 – Sep 2020 Toronto, Canada

- Instituted the **DORA framework** across RBC Wealth Management and Insurance as the primary engineering health KPI model – establishing Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as shared metrics across CIO and engineering teams.
- Governed enterprise DevOps delivery across **250+ applications and 60+ teams** – standardising deployment workflows, enforcing SOX/GDPR compliance, and ensuring audit-ready change transparency.
- Designed the **Robo Deployment Framework** – a self-service CI/CD platform enabling Windows services, database, and enterprise application delivery; reduced application onboarding from 5 weeks to 5 hours (98% reduction).
- Established DevSecOps standards across RBC Insurance – integrating SonarQube, JFrog Artifactory, Jenkins, and GitHub into CI/CD pipelines to enforce shift-left security and quality gates at scale.
- Led enterprise migration of 250+ applications across 60+ teams from CA SCM/Harvest to GitHub, enabling modern self-service provisioning.

SUMMARY

20+ year infrastructure leader with deep Cloud, DevOps, and enterprise agile delivery experience across Tier-1 banking clients. Built product frameworks – Cloud Platform Maturity Index and DevOps-as-a-Service – to govern digital infrastructure capability at enterprise scale. Skilled at aligning CIO, platform, and infrastructure teams while coaching large engineering organisations to adopt agile practices and measure delivery through meaningful KPIs.

KEY ACHIEVEMENTS

Infrastructure Product Model
Built CPMI and DevOps-as-a-Service frameworks governing cloud capability and infrastructure product delivery across ADP, Charles Schwab, and BMO.

DORA KPI Governance
Established DORA as the shared engineering health framework at RBC -- Deployment Frequency, Lead Time, CFR, and MTTR aligned across CIO and infrastructure teams.

Agile Coaching at Scale
IRIS Certified Trainer: quarterly 20-hour sessions for up to 200 engineers, driving SRE and DevOps agile adoption across three major banking clients.

Platform Delivery Excellence
modeas platform: 200+ builds/hour, 10,000+ manual hours eliminated annually, 600% deployment cadence improvement -- self-service infrastructure product at scale.

Automation Architect

IRIS Software – Toronto, Canada (Clients: Insurance & Capital Markets)

Feb 2017 – Jun 2018 Toronto, Canada

- Led RPA practice delivery automating **80+ applications and 250+ components** across Java, NodeJS, Kafka, Salesforce, and Mainframe stacks using UiPath and Automation Anywhere.
- Designed fault-tolerant, container-orchestrated deployment pipelines using Kubernetes and Helm – enabling zero-downtime rollouts for capital markets platforms.
- Contributed to \$478K SOW closure for a 12-member DevOps engagement; led pre-sales technical framing and ballpark estimation to improve early-stage client conversations.

Technology Manager

TechMahindra Pvt. Ltd. – Noida, India (Client: Adobe)

Jul 2015 – Feb 2017 Noida, India

- Led cross-functional global engineering teams on enterprise delivery programmes, aligning infrastructure and technology initiatives with stakeholder expectations and business timelines.
- Architected and delivered zero-downtime data centre migration for Adobe – owned full plan, execution, and cutover across all production workloads.
- Executed end-to-end data and code migration from Informatica to SQL Server 2012, covering schema redesign, ETL re-engineering, and enterprise-scale data validation.

Sr. SDET - QA, Automation & Production Engineering

Microsoft Corporation – India

Jul 2007 – Dec 2014 India

- Held dual mandate as Sr. SDET and Production Engineering owner – accountable for the full quality and operational lifecycle of Sales & Marketing applications serving US, EMEA, and APAC subsidiaries; sustained 99.99% uptime over 7 years.
- Built QA automation frameworks integrated with CI/CD pipelines, embedding regression and performance testing into release gates – eliminating manual testing bottlenecks across an Agile delivery model.
- Managed production operations end-to-end: incident response, RCA, infrastructure administration, and cross-team coordination – zero customer-impacting incidents over a sustained period.

Senior Software Testing Engineer

Semantic Space Technologies – India (Client: Bank of America)

Jan 2005 – Jun 2007 India

- Sole L3 Analyst from India for Statusmart application serving 3,000+ sales team members at CFC/Bank of America; managed releases, incidents, and defects via Remedy.

Software Consultant

Defense Electronics Research Laboratory (DRDO) – India

Oct 2002 – Dec 2004 India

- Delivered software consulting and systems development for defence-grade applications requiring high reliability and security standards.

CERTIFICATIONS

PMI Agile Certified Professional

PMI (PMI-ACP)

Azure Solutions Architect Expert

Microsoft (AZ-305) -- 2026

AWS Solutions Architect Associate
