SRE & Cloud Operations Leader with 20+ years institutionalizing reliability at Fortune-level scale -- delivered 40%+ MTTR reduction at ADP, SLI/SLO/error-budget governance across BMO and Charles Schwab, full-stack observability with AIOps-driven auto-remediation, and greenfield team builds from 4 to 40 engineers. Specialist in DORA metrics, blameless postmortem culture, DevSecOps, and self-healing cloud architectures on AWS and Azure.

■ Core Competencies

*SRE & Reliability Leadership
(SLI/SLO/Error Budgets)*

Cloud Operations at Scale (AWS-first)

*Observability & AIOps (APM / Logs /
Metrics / Traces)*

DevSecOps & Policy-as-Code

FinOps & Cost Governance

Blameless Postmortem & DORA Metrics

*Greenfield Team Building & Talent
Development*

DR/BCP & Operational Readiness

⚙️ Technical Skills

Cloud & IaC

AWS (SAA), Azure (AZ-305), Kubernetes,
Docker, Helm, Terraform, AWS CDK,
CloudFormation-compatible, Ansible

Observability & AIOps

Dynatrace (APM/RUM), Prometheus,
Grafana, Splunk, MS AppInsights,
OpenTelemetry, Telegraf, AIOps, self-healing
frameworks

SRE & Reliability

SLI/SLO/SLA, Error Budgets, Chaos
Engineering (Keptn), DORA Metrics,
DR/BCP, MTTR/MTTD reduction

CI/CD & DevSecOps

GitHub Actions, Azure DevOps, Jenkins,
UrbanCode, policy-as-code, secure
pipelines, SOX/GDPR compliance

ITSM & Incident Mgmt

ITIL, ServiceNow, Incident/Problem/Change
Management, L1-L4 escalation frameworks

Automation & Scripting

Python, Ansible, Bash, PowerShell, Groovy

AI / GenAI

Azure AI (AI-102), AIOps, MLOps, GenAI
Solutions (Azure & AWS)

🏢 Work Experience

IRIS Software

Sep 2020 -- Present

Sr. Specialist -- Cloud Operations & SRE Leader | Director-Level Engineering

Hyderabad, India | Clients: ADP, Charles Schwab, BMO

- ⊕ Institutionalized **SLI/SLO/SLA frameworks and error budgets** across multi-client cloud platforms (ADP, BMO, Charles Schwab) -- defining reliability thresholds, burn-rate alerting, and business-aligned commitment tiers from scratch.
- ⊕ Drove **40%+ MTTR reduction** at ADP through blameless postmortem culture, Ansible-based automated remediation, and structured L1-L4 escalation -- converting reactive operations to predictive, closed-loop incident response.
- ⊕ Deployed **full-stack observability** (Prometheus + Grafana + Dynatrace APM + Splunk) across ADP's platform -- real-time alerting, root cause correlation, and AIOps-driven anomaly detection; evolved toward auto-healing via self-healing frameworks.
- ⊕ Established **Chaos Engineering (Keptn)** for proactive fault injection and platform hardening -- systematically identifying blast radius, failure modes, and recovery paths before incidents reach production.
- ⊕ Built **ADP's SRE organization from 4 to 40 engineers and architects** across India, Canada, and the US -- defined org structure, on-call governance, engineering standards, and hiring pipeline from zero.
- ⊕ Built **Charles Schwab's 18-member Platform Engineering team from scratch** -- foundational SRE practices, reliability reviews, DR readiness, and incident governance; delivered 99.9% release reliability.
- ⊕ Delivered **HA/DR-first cloud migration for BMO** on AWS (CDK + ECS Fargate + Lambda) -- multi-AZ architecture, disaster recovery runbooks, and production readiness reviews; zero incidents during cutover.
- ⊕ Led **DevSecOps and CI/CD governance** -- Terraform-driven IaC, secure-by-default pipeline templates, and self-healing system implementations achieving 99.9% operational resilience.
- ⊕ Delivered **executive-ready reporting** -- quarterly VP/C-suite presentations on SRE metrics, error-budget status, reliability strategies, and architectural outcomes at ADP, Charles Schwab, and BMO.

Education

- **Masters in Artificial Intelligence** 2024
Woolf University
- **General Management Program** 2022
ISB Hyderabad
- **M.Sc Computer Science** 2002
Osmania University

◆ Certifications

- ⊕ Certified SRE (iSRE)
- ⊕ AWS Solutions Architect Associate (SAA-C01)
- ⊕ Azure Solutions Architect Expert (AZ-305) -- 2026
- ⊕ Certified Kubernetes Application Developer (CKAD) -- 2025
- ⊕ Azure AI Solution Design (AI-102) -- 2025
- ⊕ ITIL Certificate in IT Service Operations
- ⊕ PMI Agile Certified Professional (PMI-ACP)

IRIS Software

Jun 2018 -- Sep 2020

Automation Technology Specialist -- DevSecOps & SRE Foundations

Toronto, Canada | Client: Royal Bank of Canada Insurance

- ⊕ Inducted and operationalized the **DORA framework** across RBC Wealth Management and Insurance -- established Deployment Frequency, Lead Time, **Change Failure Rate**, and MTTR as primary engineering health metrics across 250+ applications.
- ⊕ Established **SRE principles within RBC's DevSecOps programme** -- introduced observability standards, incident classification frameworks, reliability-focused deployment gates, and structured change governance under SOX/GDPR.
- ⊕ Designed the **Robo Deployment Framework** -- CI/CD orchestration with automated artifact retrieval, compliant approval workflows, and policy-enforced change evidence; reduced onboarding from 5 weeks to 5 hours (98% reduction).
- ⊕ Implemented **Splunk-based log aggregation and alerting pipelines** integrated with CI/CD workflows -- enabling proactive detection and rapid production incident response.

IRIS Software

Feb 2017 -- Jun 2018

Automation Architect -- Platform Reliability & Container Operations

Toronto, Canada

- ⊕ Designed **fault-tolerant container-orchestrated deployment pipelines** using Kubernetes and Helm -- zero-downtime rollouts with automated rollback for capital markets platforms.
- ⊕ Pioneered **Cognitive Process Automation (CPA/IPA)** -- extending reliability practices to intelligent automation across 80+ applications and 250+ components.

TechMahindra

Jul 2015 -- Feb 2017

Technology Manager -- Enterprise Platform Reliability

Noida, India | Client: Adobe

- ⊕ Architected and delivered **zero-downtime business application migration** during Adobe's data centre relocation -- owned full operational readiness, BCP posture, and production cutover across all workloads.

Microsoft Corporation

Jul 2007 -- Dec 2014

Sr. SDET -- Production Engineering & Platform SRE

Hyderabad, India | Sales & Marketing Platforms (US, EMEA, APAC)

- ⊕ Full production lifecycle ownership for enterprise Sales & Marketing platforms serving tens of thousands of global users -- achieved **sustained 99.99% uptime over 7 years** with owned non-functional objectives (availability, scalability, security).
- ⊕ Built CI/CD-integrated QA automation frameworks with embedded regression, service virtualisation, and performance testing -- eliminating manual bottlenecks and establishing release confidence at global scale.
- ⊕ Modernized customer-facing platforms through cloud migration and **self-healing architectures** -- supported 200% user growth with zero platform reliability degradation.

Key Delivery Highlights

Greenfield SRE Organization -- ADP (4 to 40 Engineers)

SRE Leadership

Built ADP's SRE organization from 4 to 40 engineers across three continents. Instituted SLI/SLO/error-budget framework, blameless postmortem culture, Keptn chaos engineering, and Dynatrace-backed full-stack observability. Delivered 40%+ MTTR reduction through AIOps-driven automated remediation. DORA metrics tracked throughout.

Charles Schwab CloudOps -- Greenfield 18-Member Team

Greenfield CloudOps Build

Stood up Charles Schwab's Platform Engineering team from zero -- hired 18 engineers, authored reliability runbooks, established DR/BCP readiness and incident governance. Achieved 99.9% release reliability with SLO-driven release decision framework within 6 months of formation.

BMO Cloud Migration -- AWS HA/DR Architecture

AWS CloudOps & DR/BCP

Led on-premises to AWS migration for BMO -- CDK-enabled deployment pipelines, ECS Fargate + Lambda with multi-AZ HA/DR built from day one. Operational readiness reviews completed prior to cutover. Zero production incidents during migration. Terraform IaC governance with self-healing pipeline capabilities.
