EXPERIENCE

Sr. Specialist — Cloud Practice & DevOps Practice Lead

IRIS Software — India (Clients: ADP, Charles Schwab, BMO)

Sep 2020 – Present India

- Built ADP's global DevOps and SRE practice from 4 to **40 engineers** across India, Canada, and the US; established CI/CD governance, deployment automation, and blameless postmortem culture across three major banking clients.
- Architected **modeas** — a high-throughput CI/CD deployment platform handling **200+ builds/deployments per hour**, eliminating 10,000+ manual operational hours annually and improving deployment cadence by 600%.
- Developed the **Cloud Platform Maturity Index (CPMI)** — a reusable DevOps assessment and GTM framework adopted by ADP, Charles Schwab, and BMO to drive cloud capability maturity; used in pre-sales engagements as a differentiator.
- Built Charles Schwab's 18-member Platform Engineering team from the ground up; delivered Terraform-driven IaC, Kubernetes-based container orchestration, and self-healing system implementations improving release reliability to 99.9%.
- Led end-to-end on-premise to AWS cloud migration for BMO — CDK-enabled deployment pipelines for .NET applications on ECS Fargate and Lambda with HA/DR built-in from day one.
- Delivered GenAI assistants (Azure & AWS) for BMO's risk and compliance teams, demonstrating AI-powered operations capability and accelerating manual analysis with LLM-backed Q&A pipelines.
- Governed MSP vendor delivery quality through operational scorecards, SLA tracking, and structured escalation frameworks; presented DevOps transformation roadmaps to VP and C-suite stakeholders at ADP, Charles Schwab, and BMO.

Automation Technology Specialist — DevSecOps & CI/CD

IRIS Software — Toronto, Canada (Client: Royal Bank of Canada Insurance)

Jun 2018 – Sep 2020 Toronto, Canada

- Designed the **Robo Deployment Framework** — a PowerShell-native CI/CD orchestration platform enabling self-service pipelines for 250+ applications (Windows services, databases, enterprise workloads); reduced application onboarding from **5 weeks to 5 hours (98% reduction)**.
- Inducted the **DORA framework** across RBC Wealth Management and Insurance using Azure DevOps — establishing Deployment Frequency, Lead Time for Changes, Change Failure Rate, and MTTR as primary engineering health metrics.
- Enabled SAST, DAST, and IAST scanning across 250+ applications; integrated SonarQube, Jenkins, UrbanCode, JFrog Artifactory, and GitHub into a unified DevSecOps pipeline enforcing shift-left security at scale.
- Led enterprise migration of **250+ applications across 60+ teams** from CA SCM/Harvest to GitHub, enabling modern CI/CD, agile collaboration, and self-service provisioning; contributed to ~\$200K in new project acquisitions.
- Embedded RTB/CTB delivery model with strict environment segregation, SOX/GDPR-compliant change management, and audit-ready deployment governance across RBC's 250+ application estate.

SUMMARY

20+ years building and scaling DevOps practices for global FinTech and Banking clients (ADP, Charles Schwab, BMO, RBC). Closed a \$478K SOW, created reusable CI/CD frameworks that cut application onboarding from 5 weeks to 5 hours, and scaled a DevOps practice from 4 to 40 engineers. Tri-cloud certified (AWS, Azure, GCP); deep hands-on expertise in Kubernetes, Terraform, Jenkins, and DORA metrics.

KEY ACHIEVEMENTS

\$478K SOW + \$200K Acquisition
Pre-sales wins funding a 12-member DevOps engagement at RBC Capital Markets plus \$200K in subsidiary acquisitions.

modeas: 200+ Deploys/Hour
CI/CD accelerator eliminated 10,000+ manual operational hours annually; improved deployment cadence by 600%.

Practice Scale-Up: 4 → 40 Engineers
Built ADP's global DevOps/SRE organization from 4 to 40 engineers across India, Canada, and the US in 18 months.

Robo Framework: 5 Wks → 5 Hrs
Self-service CI/CD orchestration cut application onboarding by 98%; migrated 250+ apps to GitHub across 60+ teams.

Automation Architect — DevOps & RPA Practice

IRIS Software — Toronto, Canada (Insurance & Capital Markets)

Feb 2017 – Jun 2018 Toronto, Canada

- Led RPA practice delivery automating 80+ applications and 250+ components across heterogeneous stacks (Java, NodeJS, Kafka, Salesforce, Mainframe); contributed to closure of a **\$478K DevOps SOW** for a 12-member 18-month engagement.
- Designed fault-tolerant, container-orchestrated **Kubernetes/Helm** deployment pipelines enabling zero-downtime rollouts across capital markets platforms.
- Pioneered Cognitive and Intelligent Process Automation (CPA/IPA) through the Robotics Market Street programme; scaled offshore delivery team for automation in regulated domains.

Technology Manager — Enterprise Delivery

TechMahindra Pvt. Ltd. — Noida, India (Client: Adobe)

Jul 2015 – Feb 2017 Noida, India

- Led cross-functional global teams on Adobe's data centre migration — zero-downtime cutover of all production workloads; delivered SAP HANA upgrades and full ETL re-engineering (Informatica to SQL Server 2012).
- Managed large-scale programme delivery aligning infrastructure and technology initiatives with C-suite stakeholder expectations and business timelines.

Sr. SDET — Production Engineering & QA Automation

Microsoft Corporation — India

Jul 2007 – Dec 2014 India

- Dual mandate as Sr. SDET and Production Engineering owner for Sales & Marketing platforms serving Microsoft subsidiaries across US, EMEA, and APAC — sustained **99.99% uptime** over a 7-year tenure for tens of thousands of users.
- Built CI/CD-integrated QA automation frameworks with regression, service virtualisation, and performance testing; supported 200% user growth with zero platform degradation.
- Managed full production operations lifecycle: incident response, RCA, infrastructure administration (Windows & Linux), and cross-team coordination.

Senior Software Testing Engineer

Semantic Space Technologies — India (Client: CFC / Bank of America)

Jan 2005 – Jun 2007 India

- Sole L3 Analyst for Statusmart application supporting 3,000+ sales team members; led release management, QA automation, and incident resolution.

CERTIFICATIONS

Certified Kubernetes App Developer (CKAD)

CNCF — 2025

AWS Certified Solutions Architect — Associate

Amazon Web Services — 2026

Google Cloud Professional Cloud Architect

Google Cloud — 2026

Azure Solutions Architect Expert (AZ-305)

Microsoft — 2026

Certified SRE (ISRE)

DevOps Institute

ITIL Certificate — IT Service Operations

Axelos
