● Hyderabad, India

20-year infrastructure engineering leader governing IaaS, PaaS, and hybrid cloud reliability at enterprise scale.
Defined SLOs/SLIs, ITIL-aligned incident & change management, and Dynatrace/Splunk observability across ADP, Charles Schwab, BMO, and RBC.
Champions automation, IaC, and DevOps standardization through Kubernetes, Terraform, Ansible, and AWS CDK at FinTech scale.

■ Core Competencies

Core Infrastructure Leadership
(IaaS/PaaS/DBaaS)

Hybrid Cloud Architecture & Operations

SLA/OKR Management & Service Lifecycle

ITIL Incident, Problem & Change Management

Automation, IaC & DevOps Standardization

Observability Platforms (Dynatrace / Splunk)

GCC Team Building & Execution

Regulatory Compliance & Audit Readiness

⚙️ Technical Skills

Cloud & Infrastructure

AWS (SA Certified), Azure (AZ-305 Expert), Kubernetes (CKAD), Docker, Helm, Terraform, Ansible

IaaS & Storage

Storage Area Network (SAN), Server Administration, Mainframe Automation (JCL), Hybrid Cloud (AWS/Azure/on-prem)

PaaS & DevOps

AWS CDK, GitHub Actions, Jenkins, Python, PowerShell, Bash, IaC pipelines

DBaaS & Data

Oracle, SQL Server, PostgreSQL (managed services), SAP HANA, Tableau, Power BI

Observability & AIOps

Dynatrace, Prometheus, Grafana, Splunk, MS AppInsights, AppDynamics, Telegraf

ITSM & Governance

ServiceNow, ITIL, SLI/SLO, Error Budgets, Chaos Engineering (Keptn), SOX/GDPR

Work Experience

IRIS Software

Sep 2020 - Present

Sr. Specialist - Cloud Infrastructure, SRE & Platform Engineering

Hyderabad, India | Clients: ADP, Charles Schwab, BMO

- + Governed **IaaS/PaaS SLA and OKR delivery** across hybrid cloud environments for ADP, Charles Schwab, and BMO -- defining SLOs, SLIs, and error budgets aligned to business commitments across multi-client platforms.
- + Deployed **Dynatrace** alongside Prometheus/Grafana across ADP's full-stack platform, enabling real-time alerting, root cause analysis, and proactive bottleneck identification -- shifting operations from reactive to predictive.
- + Implemented **ITIL-aligned incident, problem, and change management** at ADP -- enforced structured RCA workflows, blameless postmortem culture, and cross-team change governance, with measurable improvement in change success rate and incident trends.
- + Championed **automation and IaC standardization** through Kubernetes, Terraform, Helm, and Ansible -- delivering the modeas platform at 200+ builds/deployments per hour, eliminating 10,000+ manual ops hours annually and accelerating deployment cadence by 600%.
- + Established **Chaos Engineering** practice using Keptn for ADP SRE -- proactively identifying fault scenarios and hardening platform reliability under real-world failure conditions.
- + Scaled GCC infrastructure teams: ADP SRE from **4 to 40 engineers**; built Charles Schwab's 18-member Platform Engineering team from ground up with foundational SRE practices and incident governance.
- + Reduced MTTR by **40%+** via AIOps-driven automated remediation (Ansible + Dynatrace) and continuous improvement driven by postmortem findings.
- + Architected **Cloud Platform Maturity Index (CPMI)** and DevOps-as-a-Service -- driving measurable cloud security, efficiency, and capability maturity across ADP, Schwab, and BMO.

Education

- o **Masters in Artificial Intelligence** 2024
Woolf University
- o **General Management Program (GMP)** 2022
ISB Hyderabad
- o **M.Sc in Computer Science** 2002
Osmania University
- o **B.Sc in Electronics** 2000
Kakatiya University

Certifications

- + Certified SRE (iSRE)
- + ITIL Certificate in IT Service Operations
- + AWS Certified Solutions Architect - Associate
- + Azure Solutions Architect Expert (AZ-305)
- + Certified Kubernetes Application Developer (CKAD)
- + AI-102: Azure AI Solution Design
- + DP-100: Data Science on Azure
- + PMI Agile Certified Professional (PMI-ACP)
- + 6 Sigma Yellow Belt

IRIS Software

Jun 2018 - Sep 2020

Automation Technology Specialist - DevSecOps & Infrastructure Governance

Toronto, Canada | Client: Royal Bank of Canada Insurance

- + Governed enterprise-wide DevOps and **change management across 250+ applications** - standardising deployment workflows, enforcing SOX/GDPR compliance, and ensuring audit-ready change transparency across 60+ engineering teams.
- + Established **SRE principles and DORA framework** across RBC -- introduced Deployment Frequency, Lead Time for Changes, Change Failure Rate, and MTTR as primary engineering health metrics, driving measurable improvement in delivery performance and production stability.
- + Designed the **Robo Deployment Framework** -- PowerShell-native CI/CD orchestration enabling self-service release pipelines for Windows services, databases (SSIS, Oracle, SQL Server), and enterprise workloads; reduced application onboarding from 5 weeks to 5 hours (98% reduction).
- + Implemented **Splunk-based log aggregation** and alerting pipelines integrated with CI/CD workflows, enabling proactive detection and rapid response to production incidents.
- + Led enterprise migration of 250+ applications from CA SCM/Harvest to GitHub, enabling modern CI/CD and self-service provisioning at scale.

IRIS Software

Feb 2017 - Jun 2018

Automation Architect - Infrastructure & Platform Engineering

Toronto, Canada | Clients: Insurance & Capital Markets

- + Designed **fault-tolerant, container-orchestrated deployment pipelines** using Kubernetes and Helm, enabling zero-downtime rollouts across capital markets platforms.
- + Led RPA practice delivery -- automating **80+ applications and 250+ components** across Java, NodeJS, Kafka, Salesforce, and Mainframe stacks; pioneered Cognitive and Intelligent Process Automation (CPA/IPA).
- + Contributed to **\$478K SOW closure** for JCL Mainframe automation and trading operations monitoring through technical solutioning.

TechMahindra

Jul 2015 - Feb 2017

Technology Manager

Noida, India | Client: Adobe

- + Architected and delivered **zero-downtime data centre migration** for Adobe -- owned full plan, execution, and cutover ensuring continuity across all production workloads.
- + Led SAP HANA upgrades and end-to-end **data migration from Informatica to SQL Server 2012**, covering schema redesign, ETL re-engineering, and enterprise-scale data validation.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET - Production Engineering & Quality

India | Sales & Marketing Platforms (US, EMEA, APAC)

- + Owned all non-functional objectives (performance, availability, scalability, security) for Sales & Marketing platforms serving tens of thousands of users across US, EMEA, and APAC -- sustaining **99.99% uptime** over 7 years.
- + Managed production operations end-to-end: incident response, RCA, infrastructure administration (Windows/Linux), and cross-team coordination to maintain zero customer-impacting incidents.
- + Modernised marketing platforms through cloud migration and self-healing architectures, supporting **200% user growth** with no degradation in platform reliability.

Semantic Space Technologies

Jan 2005 - Jun 2007

Senior Software Testing Engineer

India | Client: CFC / Bank of America

- + Sole L3 Analyst for Statusmart application (3,000+ sales users); led release management, QA, incident management, and ETL development (SSIS, SQL Server, Oracle).

Key Delivery Highlights

ADP Full-Stack Observability Platform IaaS/PaaS / Observability

Deployed Dynatrace, Prometheus, and Grafana across ADP's multi-client cloud platform. Enabled real-time alerting, SLO dashboards, and AIOps-driven automated remediation via Ansible. Achieved MTTR reduction of 40%+ and shifted ops model from reactive to predictive.

modeas Deployment Platform (ADP) IaC / DevOps

High-throughput IaC-driven deployment engine handling 200+ builds/hour. Eliminated 10,000+ manual ops hours annually. Kubernetes/Terraform/Ansible stack with full observability. Accelerated deployment cadence by 600% and became ADP's enterprise release standard.

Robo Deployment Framework (RBC) Automation / Governance

PowerShell-native self-service CI/CD for 250+ applications across 60+ RBC teams. Embedded SOX/GDPR compliance as code -- audit-ready artifact and approval pipelines. Reduced application onboarding from 5 weeks to 5 hours (98% reduction).

Cloud Platform Maturity Index (CPMI) Platform Governance

Enterprise framework measuring cloud security, efficiency, and automation maturity across ADP, Charles Schwab, and BMO. Drove measurable capability improvement across three major banking clients and became the baseline for GCC infrastructure governance reporting.
