EXPERIENCE

Sr. Specialist — Cloud Practice & Platform Engineering Lead

IRIS Software — India (Clients: ADP, Charles Schwab, BMO)

Sep 2020 – Present India

- Led **GCP landing zone preparation and workload migration POCs** for Charles Schwab — evaluated GCP-native services (Cloud Run, Load Balancers, GCS) for cloud-native deployments; aligned artifact delivery pipelines across TD Ameritrade and Charles Schwab environments as part of the merger integration programme.
- Drove **AWS FinOps practices for BMO** — identifying obsolete, unused, and underutilised resources; rightsizing workloads to match actual demand; reducing cloud waste and improving cost efficiency across the AWS estate.
- Led end-to-end on-premise to **AWS cloud migration for BMO** — CDK-enabled deployment pipelines for .NET applications on ECS Fargate and Lambda with HA/DR built-in from day one.
- Built Charles Schwab's 18-member Platform Engineering team from zero — Terraform-driven IaC, Kubernetes container orchestration, self-healing systems, and CI/CD pipelines improving release reliability to 99.9%.
- Deployed full-stack observability using **Prometheus, Grafana, and Dynatrace** across ADP's platform — open-source monitoring at scale, AIOps-driven automated remediation via Ansible, and Chaos Engineering (Keptn) for proactive resilience testing.
- Architected **modeas** — a high-throughput CI/CD platform handling 200+ builds/deployments per hour, eliminating 10,000+ manual operational hours annually; improved deployment cadence by 600%.
- Developed the **Cloud Platform Maturity Index (CPMI)** — a reusable cloud governance and cost efficiency framework adopted across ADP, Charles Schwab, and BMO for measurable capability improvement.
- Delivered **GenAI and AI automation** solutions for BMO — LLM-backed risk summarisation and Q&A assistants on Azure and AWS; championed AI-driven automation to improve operational efficiency across engineering teams.
- Governed SOX/GDPR-compliant change management, security standards, and audit-ready delivery across multiple banking clients; presented cloud platform strategies to VP and C-suite stakeholders.

Automation Technology Specialist — DevSecOps & Cloud Governance

IRIS Software — Toronto, Canada (Client: Royal Bank of Canada Insurance)

Jun 2018 – Sep 2020 Toronto, Canada

- Enabled SAST, DAST, and IAST scanning across 250+ applications — integrated **SonarQube, Jenkins, UrbanCode, JFrog Artifactory, and GitHub** into a unified DevSecOps pipeline enforcing shift-left security and cloud governance at scale.
- Implemented **Splunk-based observability** pipelines for proactive incident detection; inducted DORA framework (Deploy Frequency, Lead Time, CFR, MTTR) across 60+ teams using Azure DevOps.
- Designed the Robo Deployment Framework — self-service CI/CD orchestration via **Terraform/IaC** principles reducing application onboarding from **5 weeks to 5 hours (98% reduction)**; migrated 250+ apps to GitHub.
- Enforced SOX/GDPR cloud compliance and audit-ready change management across 250+ applications in a regulated FinTech environment.

SUMMARY

20+ years leading cloud platform strategy and infrastructure operations for global FinTech clients (ADP, Charles Schwab, BMO, RBC). Delivered GCP landing zones and workload migration POCs at Charles Schwab; drove AWS FinOps (rightsizing, cost governance) at BMO. Deep expertise in Kubernetes, Terraform, open-source observability, and AI-driven automation. Tri-cloud certified (GCP PCA, AWS SAA, Azure AZ-305); experienced executive stakeholder across US and India geographies.

KEY ACHIEVEMENTS

- \$

AWS FinOps at BMO
Rightsized workloads and eliminated unused resources across BMO's AWS estate, reducing cloud waste and improving cost governance.
- ⚙

modeas: 200+ Deploys/Hour
CI/CD platform eliminated 10,000+ manual operational hours annually; 600% improvement in deployment cadence.
- ↑

Platform Team: 4 → 40 Engineers
Built ADP's global cloud platform and SRE organization from 4 to 40 engineers across India, Canada, and the US.
- **Onboarding: 5 Weeks → 5 Hours**
IaC-driven self-service CI/CD framework cut application onboarding by 98%; 250+ apps migrated across 60+ teams.

Automation Architect — Cloud & Infrastructure

IRIS Software — Toronto, Canada (Insurance & Capital Markets)

Feb 2017 – Jun 2018 Toronto, Canada

- Designed fault-tolerant, container-orchestrated **Kubernetes/Helm** deployment pipelines for zero-downtime rollouts across capital markets platforms; led RPA practice automating 80+ applications.
- Closed a **\$478K DevOps SOW** at RBC Capital Markets through pre-sales leadership; scaled offshore delivery team for automation in regulated financial services.

Technology Manager — Enterprise Delivery

TechMahindra Pvt. Ltd. — Noida, India (Client: Adobe)

Jul 2015 – Feb 2017 Noida, India

- Led cross-functional global teams on Adobe's data centre migration and SAP HANA upgrades — zero-downtime cutover of all production workloads with full stakeholder alignment.

Sr. SDET — Production Engineering & Platform Operations

Microsoft Corporation — India

Jul 2007 – Dec 2014 India

- Owned production operations and quality for Sales & Marketing platforms serving Microsoft subsidiaries across US, EMEA, and APAC — **99.99% uptime** over 7 years; managed full incident lifecycle, RCA, and infrastructure administration.
- Built CI/CD-integrated QA automation frameworks; supported 200% user growth with zero platform degradation across cloud-migrated and self-healing architectures.

CERTIFICATIONS

Google Cloud Professional Cloud Architect

Google Cloud — 2026

Certified Kubernetes App Developer (CKAD)

CNCF — 2025

AWS Certified Solutions Architect — Associate

Amazon Web Services — 2026

Azure Solutions Architect Expert (AZ-305)

Microsoft — 2026

Certified SRE (ISRE)

DevOps Institute

ITIL Certificate — IT Service Operations

Axelos
