PROFESSIONAL SUMMARY

SRE and reliability engineering leader with 22+ years transforming enterprise infrastructure resilience across BFSI. Specialist in disaster recovery planning, BCDR governance, and large-scale recovery from data center loss events at global banking scale. Led a 35-engineer SRE organisation at ADP that cut MTTR by 40%+ through Dynatrace-driven observability, Ansible-automated remediation, and Keptn-based DR validation -- proactively simulating DC-loss scenarios and hardening RTO/RPO adherence before incidents occur. Closed recovery risk exposure across multi-cloud (AWS, Azure) platforms for ADP, Charles Schwab, BMO, and RBC. Presents disaster recovery strategy and service reliability posture directly to VP and C-suite stakeholders. Targeting a Global Head of Service Reliability mandate to own the end-to-end BCDR and infrastructure resilience charter.

CORE COMPETENCIES

Disaster Recovery & BCDR Planning

RTO/RPO Governance & DR Testing

Large-Scale Incident Recovery & MTTR Reduction

Chaos Engineering & Fault Injection (Keptn)

SLO/SLI/Error Budget Management

Multi-Cloud Infrastructure Resilience

Global SRE Team Scaling & Leadership

Executive Stakeholder Engagement

WORK EXPERIENCE

IRIS Software

Sep 2020 - Present

Sr. Specialist -- Cloud Practice & SRE Lead

India | Clients: ADP, Charles Schwab, BMO

- Established Chaos Engineering (Keptn) at ADP to validate disaster recovery readiness -- simulated DC-loss scenarios and measured RTO/RPO adherence, proactively identifying and hardening 3 critical failure paths before real incidents occurred.
- Led incident response and BCDR programmes for ADP SRE, instituting blameless postmortem culture and automated remediation via Ansible and Python -- **reducing MTTR by 40%+** across a 35-engineer global organisation.
- Defined and governed SLOs, SLIs, and error budgets across multi-client cloud platforms (BMO, ADP, Charles Schwab), aligning recovery thresholds and reliability targets to business commitments.
- Deployed Prometheus, Grafana, and Dynatrace for full-stack observability, enabling real-time root cause analysis and proactive bottleneck identification across ADP's multi-cloud estate.
- Scaled ADP's SRE organisation from 4 to 35 engineers and architects across India, Canada, and the US; built Charles Schwab's 18-member Platform Engineering team from scratch.
- Presented disaster recovery strategies, SRE metrics, and resilience architectures directly to VP and C-suite stakeholders at ADP, Charles Schwab, and BMO.
- Delivered high-throughput deployment platform (modeas) handling 200+ builds/deployments per hour, eliminating 10,000+ manual ops hours annually and improving release reliability to 99.9%.
- Led on-premise to AWS cloud migration for BMO -- CDK-enabled deployment pipelines for .NET applications targeting ECS Fargate and Lambda, with HA and Disaster Recovery embedded across the architecture.
- Deployed GenAI risk summarisation assistants (Azure & AWS) for BMO via BCRG and LTS pipelines, reducing manual analysis effort.

IRIS Software

Jun 2018 - Sep 2020

Automation Technology Specialist

Toronto, Canada | Client: Royal Bank of Canada Insurance

- Established SRE principles within RBC's DevSecOps programme -- introduced observability standards, incident classification frameworks, and reliability-focused deployment gates across 250+ applications.
- Implemented Splunk-based log aggregation and alerting integrated with CI/CD, enabling proactive detection and rapid response to production incidents.
- Governed enterprise-wide change management across 250+ applications -- standardising deployment workflows, enforcing SOX/GDPR compliance, and ensuring audit-ready change transparency.
- Designed the Robo Deployment Framework -- a PowerShell-native CI/CD orchestration platform for Windows services and database deployments (SSIS, Oracle, SQL Server); **reduced application onboarding from 5 weeks to 5 hours (98% reduction)**.

Technology Manager

Noida, India | Client: Adobe

- Architected zero-downtime business application migration during Adobe's data centre relocation -- owned end-to-end plan, execution, and cutover, ensuring continuity across all production workloads.
- Led Informatica-to-SQL Server 2012 migration for Adobe, covering ETL re-engineering and data validation at enterprise scale; drove SAP HANA upgrades and HTTP/7 enablements.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET -- Automation Architect

India

- Sustained **99.99% platform uptime** over 7 years through proactive SLI monitoring, automated recovery, and postmortem-driven improvement -- supported 200% user growth with zero critical incidents via cloud migration and self-healing architectures.

KEY PROGRAMMES

ADP SRE Scale-Up & DR Validation Programme BFSI | DR | SRE

Built ADP's SRE organisation from 4 to 35 engineers across 3 countries. Implemented Keptn-based chaos engineering for disaster recovery validation -- fault injection simulating DC-loss scenarios with RTO/RPO adherence measurement. Reduced MTTR by 40%+ through Dynatrace observability and Ansible automated remediation.

Dynatrace | Keptn | Ansible | Prometheus | Grafana | AWS | Azure | Kubernetes

modeas -- High-Throughput Deployment & Resilience Platform Platform Engineering

Architected and delivered a high-throughput deployment engine handling 200+ builds/deployments per hour with self-healing recovery and 99.9% release reliability. Eliminated 10,000+ manual operational hours annually and improved deployment cadence by 600%.

Kubernetes | Helm | Terraform | Jenkins | GitHub Actions | AWS CDK

RBC Robo Deployment Framework DevSecOps | FinTech

Designed a PowerShell-native CI/CD orchestration platform for RBC Insurance supporting Windows services, database deployments (SSIS, Oracle, SQL Server), and enterprise workloads. Automated artifact retrieval and approval workflows -- reduced application onboarding from 5 weeks to 5 hours (98% reduction) across 250+ applications and 60+ teams.

PowerShell | Python | Ansible | Splunk | GitHub | SOX/GDPR compliance

EDUCATION

Masters in Artificial Intelligence -- Woolf University	2024
General Management Program (GMP) -- ISB Hyderabad	2022
M.Sc in Computer Science -- Osmania University	2002

CERTIFICATIONS

Certified SRE (iSRE)	
ITIL Certificate in IT Service Operations	
Microsoft Certified: Azure Solutions Architect Expert (AZ-305)	2026
AWS Certified Solutions Architect - Associate (SAA-C01)	2026
Certified Kubernetes Application Developer (CKAD)	2025
AI-102: Microsoft Azure AI Solution Design & AI-900: Azure AI Fundamentals	2025
PMI Agile Certified Professional (PMI-ACP) 6-Sigma Yellow Belt	

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, Microsoft Azure, Kubernetes, Docker, Helm, Terraform, AWS CDK, Ansible

Observability & DR Monitoring: Dynatrace, Prometheus, Grafana, Splunk, MS AppInsights, AppDynamics

Reliability & Recovery: SLI/SLO, Error Budgets, Chaos Engineering (Keptn), Self-Healing, ITIL, ServiceNow, BCDR

Automation & CI/CD: Python, Ansible, Bash, PowerShell, GitHub Actions, Jenkins, GitLab

AI/ML Ops: GenAI (Azure & AWS), AIOps, MLOps, RPA (UiPath, Automation Anywhere)
