PROFESSIONAL SUMMARY

VP-level SRE leader with 20+ years building and scaling reliability engineering practices across global banking and enterprise SaaS - specialising in SLI/SLO framework design, error budget governance, multi-environment automation, and MTTR reduction at scale. Built ADP's SRE organisation from 4 to 35 engineers, reducing MTTR by 40%+ through AIOps-driven automated remediation. Delivered the modeas platform eliminating 10,000+ manual operational hours annually across 45+ client environments. Deep expertise in Kubernetes/EKS, AWS, Terraform, Ansible, Prometheus/Grafana, CI/CD governance, and DevSecOps (SAST/DAST/IAST across 250+ production applications). Track record of scaling SRE through automation - not headcount - and presenting operational metrics directly to C-suite stakeholders.

CORE COMPETENCIES

SLI/SLO & Error Budget Governance

SRE Practice Building at Scale

MTTR Reduction & Incident Management

SaaSOps Automation & Toil Elimination

Kubernetes / EKS / AWS

Security & DevSecOps (SAST/DAST/IAST)

Release Governance & Change Management

Multi-Tenant Infrastructure Operations

WORK EXPERIENCE

IRIS SoftwareSep 2020 - Present

Sr. Specialist - Cloud Practice & SRE Lead | India (Clients: ADP, Charles Schwab, BMO)

- SRE practice built from scratch:** Defined and governed SLIs, SLOs, and error budgets across multi-client cloud platforms (ADP, Charles Schwab, BMO) - establishing reliability thresholds aligned to business commitments and reporting error budget consumption to VP and C-suite stakeholders.
- MTTR reduced 40%+:** Deployed AIOps-driven automated remediation via Ansible + Dynatrace alerting at ADP - converting reactive incident management to predictive, self-healing operations. Instituted blameless postmortem culture with RCA standardisation across a 35-member team.
- SRE org scaled 4 to 35 engineers** across India, Canada, and the US - managing on-call rotations, escalation frameworks, and structured incident governance. Zero repeat Sev-1 incidents in 18 months post-transformation.
- SaaSOps automation at scale:** Delivered modeas - high-throughput operations platform handling 200+ builds/deployments per hour across 45+ client environments, eliminating 10,000+ manual operational hours annually. Scaled environments/engineer ratio through automation, not headcount.
- Built Charles Schwab's 18-member Platform Engineering team from zero - establishing SLO governance, incident response frameworks, quality gates, and release management practices.
- Governed MSP and vendor delivery quality through operational scorecards, SLA tracking, and structured escalation/remediation frameworks - maintained accountability across external partners for 3 major banking clients.
- Led end-to-end AWS cloud migration for BMO - CDK-enabled ECS Fargate and Lambda pipelines with HA/DR architecture; led FinOps practices identifying and eliminating cloud waste across the AWS estate.
- Deployed GenAI assistants on AWS Bedrock for BMO risk summarisation and Q&A workflows - reducing manual analysis effort in a compliance-regulated environment.

IRIS Software

Jun 2018 - Sep 2020

Automation Technology Specialist | Toronto, Canada (Client: Royal Bank of Canada Insurance)

- **DevSecOps & security from zero:** Enabled SAST, DAST, and IAST scanning as core security objectives across RBC Insurance - integrating SonarQube, JFrog Artifactory, Jenkins, and GitHub into CI/CD pipelines to enforce shift-left security, dependency management, and vulnerability remediation across 250+ applications.
- **Release governance at scale:** Governed enterprise-wide change management across 250+ applications across 60+ teams - standardising deployment workflows, enforcing SOX/GDPR compliance, and maintaining audit-ready change transparency with <5% change failure rate.
- Embedded DORA framework across RBC Wealth Management and Insurance - establishing Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as primary engineering health metrics; drove measurable improvement in delivery performance.
- Designed Robo Deployment Framework (RDF) - PowerShell-native CI/CD orchestration for Windows services, SQL Server, Oracle, and SSIS deployments; reduced onboarding from **5 weeks to 5 hours (98% reduction)**.
- Implemented Splunk-based log aggregation and alerting pipelines integrated with CI/CD - enabling proactive detection and rapid response to production incidents.

IRIS Software

Feb 2017 - Jun 2018

Automation Architect | Toronto, Canada (Insurance & Capital Markets)

- Designed fault-tolerant, container-orchestrated deployment pipelines using Kubernetes and Helm - enabling zero-downtime rollouts across capital markets platforms.
- Pioneered Cognitive and Intelligent Process Automation (CPA/IPA) - automating 80+ applications and 250+ components across heterogeneous stacks; built Python automation frameworks and offshore delivery teams for regulated domains.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET - Production Engineering | India (US, EMEA, APAC)

- Owned complete production operations for Sales & Marketing platforms serving Microsoft subsidiaries across US, EMEA, and APAC - accountable for incident response, RCA, infrastructure administration, and **99.99% uptime over 7 years**.
- Defined and enforced all non-functional objectives (performance, availability, scalability, security) across infrastructure and application tiers for tens of thousands of users globally.
- Built QA automation frameworks integrated with CI/CD; supported 200% user growth with no degradation in reliability or quality coverage.

TechMahindra

Jul 2015 - Feb 2017

Technology Manager | Noida, India (Client: Adobe)

- Architected and delivered zero-downtime business application migration during Adobe's data centre relocation - full plan, execution, and cutover across all production workloads.
- Led SAP HANA upgrades and SQL Server migrations at enterprise scale; managed cross-functional global engineering teams across large-scale delivery programmes.

KEY PROJECTS

ADP SRE Practice - Built from Zero SRE at Scale

Scaled ADP's SRE organisation from 4 to 35 engineers. Defined SLIs, SLOs, and error budgets from scratch across multi-cloud platforms. Deployed AIOps automated remediation (Dynatrace + Ansible) to achieve 40%+ MTTR reduction and zero repeat Sev-1 incidents in 18 months. Managed on-call rotations, escalation frameworks, and weekly reliability reporting to VP and C-suite. Embedded Chaos Engineering (Keptn) for proactive fault identification.

AWS · Azure · Kubernetes · Prometheus · Grafana · Dynatrace · Ansible · ServiceNow · ITIL

modeas - SaaSOps Automation Platform Toil Elimination

Designed and delivered high-throughput operations automation platform handling 200+ builds/deployments per hour across 45+ client environments. Eliminated 10,000+ manual operational hours annually; improved deployment cadence by 600%. Scaled environments/engineer ratio through automation - the exact model required to grow from 45 to 135+ environments without proportional headcount increase.

Python · Ansible · Terraform · AWS CDK · ECS Fargate · Kubernetes · Helm · Jenkins

RBC DevSecOps - Security & Release Governance at Scale Security from Zero

Built DevSecOps practice from zero at RBC Insurance - enabling SAST/DAST/IAST scanning across 250+ applications (SonarQube, JFrog Artifactory, GitHub), enforcing SOX/GDPR-compliant change governance, and governing release management across 60+ teams. Reduced onboarding time 98% (5 weeks to 5 hours) via the Robo Deployment Framework. Established DORA metrics across Wealth Management and Insurance divisions.

SonarQube · JFrog Artifactory · Jenkins · GitHub · Splunk · PowerShell · Python · Ansible

EDUCATION

Masters in Artificial Intelligence - Woolf University	2024
General Management Program (GMP) - ISB Hyderabad	2022
M.Sc in Computer Science - Osmania University	2002

CERTIFICATIONS

Certified SRE (iSRE)	iSRE Institute	
ITIL® Certificate in IT Service Operations	AXELOS	
AWS Certified Solutions Architect - Associate (SAA-C01)	Amazon Web Services	2026
Certified Kubernetes Application Developer (CKAD)	CNCF	2025
Microsoft Certified: Azure Solutions Architect Expert (AZ-305)	Microsoft	2026
Google Cloud Certified - Professional Cloud Architect (PCA)	Google	2026
Microsoft Certified: Azure AI Engineer Associate (AI-102)	Microsoft	
PMI Agile Certified Professional (PMI-ACP)	PMI	

SKILLS

Cloud & Infra: AWS (EKS, Lambda, RDS, S3, CloudFront, IAM, VPC, Route53), Azure, Kubernetes, Docker, Helm

IaC & Automation: Terraform, Ansible, AWS CDK, Python, Bash, PowerShell, Go

CI/CD: GitLab CI, Jenkins, GitHub Actions, Azure DevOps, UrbanCode

Observability: Prometheus, Grafana, Alertmanager, Loki, Dynatrace, Splunk, CloudWatch, MS AppInsights

Security: SonarQube, JFrog Artifactory, Snyk (adjacent), SAST/DAST/IAST, SOX/GDPR compliance

Databases: MongoDB (operational), Redis (adjacent), SQL Server, Oracle, SAP HANA

SRE: SLI/SLO, Error Budgets, Chaos Engineering (Keptn), Blameless Postmortems, ITIL, ServiceNow

AI/ML: AIOps, GenAI (AWS Bedrock, Azure OpenAI), MLOps
