• Hyderabad, India

20-year IT Production Services leader governing production stability, IT service management, and infrastructure operations for global financial services organizations.

Directed enterprise change management across 250+ applications with SOX/GDPR audit compliance, instituted incident response programmes reducing MTTR by 40%+, and delivered disaster-recovery-ready cloud infrastructure for ADP, RBC Wealth Management, BMO, and Charles Schwab.

■ Core Competencies

IT Production Services & Infrastructure Operations

ITSM / Incident & Change Management

Disaster Recovery & Business Continuity

Vendor Management & SLA Governance

Production Monitoring, KPIs & Performance

Cloud Infrastructure Strategy & Delivery

IT Budget Management & Financial Acumen

Matrixed Leadership & Global Team Development

⚙️ Technical Skills

ITSM & Production Ops

ITIL, ServiceNow, Incident/Problem/Change Mgmt

Cloud & Infrastructure

AWS, Microsoft Azure, Kubernetes, Docker, Helm, Terraform, Ansible

Observability & Monitoring

Prometheus, Grafana, Dynatrace, Splunk, AppDynamics, MS App Insights

Reliability & DR

SLI/SLO, HA/DR Architecture, Self-Healing, Chaos Engineering (Keptn)

Storage & Infrastructure

SAN, Data Center Operations, Linux, Windows Server

Automation & CI/CD

Python, Go, Ansible, Bash, GitHub Actions, Jenkins, UrbanCode

Financial Domain

FinTech, Wealth Management, Securities, Capital Markets, SOX/GDPR

🎓 Education

• **Masters in Artificial Intelligence** 2024
Woolf University

• **General Management Program** 2022
ISB Hyderabad

• **M.Sc, Computer Science** 2002
Osmania University

👤 Work Experience

IRIS Software Group

Sep 2020 -- Present

Sr. Specialist -- Cloud Practice & SRE Lead

India | Clients: ADP, Charles Schwab, BMO

- ⊕ Governed IT production services and change management across ADP, Charles Schwab, and BMO -- instituting ITIL-aligned incident, problem, and change management with structured RCA workflows, measurable improvement in change success rates, and blameless postmortem culture reducing MTTR by over 40%.
- ⊕ Defined and managed production environment SLOs and SLIs across multi-client cloud platforms, establishing error budgets and reliability KPIs aligned to business commitments - - deploying Dynatrace, Prometheus, and Grafana for real-time alerting and performance monitoring.
- ⊕ Managed on-call rotations and escalation frameworks for a 35-member SRE team across India, Canada, and the US -- embedding 24/7 coverage practices and structured incident management across the engineering organisation.
- ⊕ Governed MSP and vendor delivery quality through operational scorecards, SLA tracking, and structured escalation and remediation frameworks -- improving vendor accountability across production operations.
- ⊕ Delivered disaster-recovery-ready AWS infrastructure for BMO's CCB -- CDK-enabled deployment pipelines for .NET applications across ECS Fargate and Lambda with High Availability and DR built into architecture from day one.
- ⊕ Scaled ADP's production engineering organisation from 4 to 40 engineers across three countries -- overseeing performance management, skills development, and structured knowledge transfer through 200-participant enterprise training programmes.
- ⊕ Built Charles Schwab's 18-member Platform Engineering team from the ground up -- establishing production operations practices, reliability reviews, and incident governance that improved release reliability to 99.9%.
- ⊕ Implemented self-healing and automation frameworks using Ansible and Python -- eliminating 10,000+ manual operational hours annually and enabling automated detect-diagnose-remediate workflows for known failure patterns.

◆ Certifications

- ⊕ Certified SRE (iSRE)
- ⊕ ITIL Certificate in IT Service Operations
- ⊕ Azure Solutions Architect Expert (AZ-305) -- 2026
- ⊕ AWS Certified Solutions Architect -- Associate -- 2026
- ⊕ Certified Kubernetes Application Developer (CKAD) -- 2025
- ⊕ AI-102: Azure AI Solution Design -- 2025
- ⊕ PMI Agile Certified Professional (PMI-ACP)
- ⊕ Microsoft Certified IT Professional (MCITP)
- ⊕ 6 Sigma Yellow Belt

IRIS Software Group

Jun 2018 -- Sep 2020

Automation Technology Specialist

Toronto, Canada | Client: Royal Bank of Canada (Wealth Management & Insurance)

- ⊕ Governed enterprise-wide IT service management and change management across 250+ applications and 60+ teams -- standardising deployment workflows, enforcing SOX/GDPR compliance, and maintaining audit-ready change evidence pipelines; onboarding time reduced from 5 weeks to 5 hours.
- ⊕ Implemented Splunk-based log aggregation and alerting pipelines integrated with CI/CD workflows -- enabling proactive incident detection and rapid response across RBC's production environments.
- ⊕ Embedded Run the Bank (RTB) and Change the Bank (CTB) principles across RBC's delivery model -- establishing strict environment segregation and frictionless deployment cadence through governed CI/CD pipelines.
- ⊕ Inducted and operationalised the DORA framework across RBC Wealth Management and Insurance -- establishing Deployment Frequency, MTTR, Change Failure Rate, and Lead Time as primary production health metrics.
- ⊕ Contributed to approximately \$200K in new project acquisitions through pre-sales and delivery leadership across RBC subsidiaries.

TechMahindra Pvt. Ltd.

Jul 2015 -- Feb 2017

Technology Manager

Noida, India | Client: Adobe

- ⊕ Architected and delivered zero-downtime business application migration during Adobe's data centre relocation -- owned full migration plan, execution, and production cutover ensuring continuity across all workloads.
- ⊕ Led cross-functional global engineering teams on large-scale enterprise delivery programmes, aligning infrastructure and technology initiatives with stakeholder expectations and business timelines.

Microsoft Corporation

Jul 2007 -- Dec 2014

Sr. SDET -- Production Engineering & Operations

India | Sales & Marketing Platforms (US, EMEA, APAC)

- ⊕ Owned 7 years of continuous production operations for Sales and Marketing platforms serving tens of thousands of users across US, EMEA, and APAC -- sustained 99.99% uptime through disciplined incident response, RCA, change governance, and DR planning.
- ⊕ Held dual mandate as production engineering owner: accountable for all non-functional objectives -- performance, availability, scalability, and security -- across network, infrastructure, and application tiers.
- ⊕ Managed production incidents end-to-end: incident response, root cause analysis, infrastructure administration (Windows and Linux), and cross-team coordination; maintained zero customer-impacting incidents over sustained period.
- ⊕ Built QA automation frameworks integrated with CI/CD pipelines -- automated regression, service virtualisation, and performance testing embedded into release gates, eliminating manual bottlenecks and accelerating release confidence.

Key Delivery Highlights

RBC Enterprise ITSM & Change Governance

ITSM | SOX/GDPR | 250+ Apps

Governed enterprise-wide IT service management and change management across 250+ applications and 60+ teams at RBC Wealth Management and Insurance. Standardised deployment workflows, enforced SOX/GDPR compliance, and established audit-ready change evidence pipelines. Application onboarding time reduced from 5 weeks to 5 hours (98% reduction). Inducted DORA framework as primary production health measurement across the organisation.

ADP Incident Management & Production Self-Healing

MTTR -40% | Dynatrace | Ansible

Designed and operationalised a full incident management programme for ADP's multi-client SRE platform -- blameless postmortem culture, automated Ansible remediation workflows triggered by Dynatrace, and structured on-call escalation for 35 engineers across three countries. MTTR reduced by 40%+; converted reactive operations to predictive, self-healing model.

BMO AWS Cloud Migration with HA/DR

AWS | CDK | Disaster Recovery

Led end-to-end on-premise to AWS cloud migration for BMO's CCB, delivering CDK-enabled deployment pipelines for .NET applications across ECS Fargate containers and Lambda functions. High Availability and Disaster Recovery designed into architecture from day one -- multi-AZ failover, automated recovery, and full DR runbooks validated before production cutover.

Microsoft Production Operations -- 99.99% Uptime over 7 Years

Production Ops | NFR |

Global

Held full production operations ownership for Microsoft Sales and Marketing platforms across US, EMEA, and APAC over a 7-year tenure. Sustained 99.99% uptime through structured incident response, change governance, DR planning, and non-functional ownership across network, infrastructure, and application tiers. Zero customer-impacting incidents over the sustained period.
