EXPERIENCE

Sr. Specialist — Cloud Practice & SRE Command Center Lead

IRIS Software — India (Clients: ADP, Charles Schwab, BMO)

Sep 2020 – Present India

- Led **24x7 SRE command center operations** for ADP — 35-engineer org, on-call escalation frameworks, major incident command, blameless postmortem culture, and **MTTR reduced by 40%+** through AIOps-driven automated remediation.
- Implemented full-stack observability using **Prometheus, Grafana, and Dynatrace** across ADP's platform — real-time alerting, AIOps automation, self-healing workflows via Ansible, and proactive bottleneck identification.
- Established Chaos Engineering practices (Keptn) for ADP SRE — proactively surfacing fault scenarios and hardening platform resilience under real-world failure conditions before they hit production.
- Built Charles Schwab's 18-member Platform Engineering team from zero — SRE practices, reliability reviews, incident governance, and SLA/KPI reporting framework deployed within one quarter.
- Governed SLA/KPI performance across 3 banking clients via operational scorecards, vendor escalation frameworks, and structured change management; presented reliability roadmaps to VP and C-suite stakeholders.
- Established a **Cloud Platform Maturity CoE (CPMI)** — a reusable DevOps and operations assessment framework adopted by ADP, Charles Schwab, and BMO to drive consistent capability improvement.
- Led end-to-end BMO cloud migration (on-prem to AWS) — CDK-enabled pipelines for .NET on ECS Fargate and Lambda; HA/DR built-in; GenAI assistants deployed for risk operations teams.

Automation Technology Specialist — DevSecOps & Operations

IRIS Software — Toronto, Canada (Client: Royal Bank of Canada Insurance)

Jun 2018 – Sep 2020 Toronto, Canada

- Established SRE and **incident management principles** within RBC's DevSecOps programme — observability standards, incident classification frameworks, and reliability-focused deployment gates across 250+ applications.
- Inducted the **DORA framework** across RBC Wealth Management and Insurance — Deployment Frequency, Lead Time for Changes, Change Failure Rate, and MTTR as primary engineering health metrics.
- Implemented **Splunk-based log aggregation and alerting** pipelines integrated with CI/CD workflows for proactive production incident detection and rapid response.
- Governed SOX/GDPR-compliant change management across 250+ applications; enforced audit-ready change transparency and structured incident evidence pipelines.
- Designed the Robo Deployment Framework — self-service CI/CD orchestration reducing application onboarding from 5 weeks to **5 hours (98% reduction)**; migrated 250+ apps across 60+ teams to GitHub.

Automation Architect — Infrastructure & Operations

IRIS Software — Toronto, Canada (Insurance & Capital Markets)

Feb 2017 – Jun 2018 Toronto, Canada

- Designed fault-tolerant, container-orchestrated **Kubernetes/Helm** deployment pipelines enabling zero-downtime rollouts; led RPA practice automating 80+ applications across capital markets platforms.
- Closed a **\$478K DevOps SOW** through pre-sales leadership; scaled offshore delivery team for automation in regulated financial services domains.

SUMMARY

20+ years in IT infrastructure operations and SRE for global banking clients (ADP, Charles Schwab, BMO, RBC). Built and led 24x7 command center operations, AIOps-driven incident management, and major incident response programmes. Reduced MTTR by 40%+ and scaled SRE organisations from 4 to 40 engineers. Certified on AWS, Azure, and GCP; deep expertise in ITIL, DORA, Dynatrace, and observability-first platform operations in financial services.

KEY ACHIEVEMENTS

40%+ MTTR Reduction via AIOps
AIOps-driven automated remediation (Dynatrace + Ansible) and blameless postmortem culture transformed ADP's incident response posture.

24x7 SRE Org: 4 → 40 Engineers
Built ADP's global SRE command center from 4 to 40 engineers across India, Canada, and the US in 18 months.

\$478K SOW + \$200K Acquisition
Pre-sales leadership funding a 12-member DevOps engagement at RBC Capital Markets plus \$200K in subsidiary acquisitions.

99.99% Uptime over 7 Years
Production Engineering owner at Microsoft for Sales & Marketing platforms serving tens of thousands of users across US, EMEA, and APAC.

Technology Manager — Enterprise Delivery

TechMahindra Pvt. Ltd. — Noida, India (Client: Adobe)

 Jul 2015 – Feb 2017  Noida, India

- Led cross-functional global teams on Adobe's data centre migration — zero-downtime cutover of all production workloads; SAP HANA upgrades and large-scale ETL re-engineering delivered on schedule.

Sr. SDET — Production Engineering & 24x7 Operations

Microsoft Corporation — India

 Jul 2007 – Dec 2014  India

- Dual mandate as Sr. SDET and Production Engineering owner for Sales & Marketing platforms serving Microsoft subsidiaries across US, EMEA, and APAC — **99.99% uptime** sustained over a 7-year tenure for tens of thousands of users.
- Managed full production operations: incident response, RCA, infrastructure administration (Windows & Linux), escalation coordination; supported 200% user growth with zero platform degradation.
- Defined and enforced non-functional SLAs (performance, availability, scalability, security) across network, infrastructure, and application tiers in an Agile delivery model.

Senior Software Testing Engineer

Semantic Space Technologies — India (Client: CFC / Bank of America)

 Jan 2005 – Jun 2007  India

- Sole L3 Analyst for Statusmart supporting 3,000+ Bank of America sales team members; led release management and incident resolution end-to-end.

CERTIFICATIONS

Certified SRE (iSRE)

DevOps Institute

ITIL Certificate — IT Service Operations

Axelos

AWS Certified Solutions Architect — Associate

Amazon Web Services — 2026

Azure Solutions Architect Expert (AZ-305)

Microsoft — 2026

Google Cloud Professional Cloud Architect

Google Cloud — 2026

Certified Kubernetes App Developer (CKAD)

CNCF — 2025
