PROFESSIONAL SUMMARY

Platform Engineering executive with 22 years architecting enterprise-grade multi-cloud infrastructure for global banking institutions. Built self-service provisioning platforms and policy-driven IaC automation frameworks serving ADP, Charles Schwab, BMO, and RBC -- scaling delivery from weeks to hours across Azure, AWS, and Kubernetes-native environments. Deep expertise in CSP automation framework integration, cloud inventory governance, SOX/GDPR-compliant change orchestration across 250+ production applications, and AI-powered infrastructure tooling. Proven VP-level leader who has grown engineering teams from 4 to 35 engineers and presented reliability strategies and cloud platform roadmaps directly to C-suite stakeholders at global financial institutions.

CORE COMPETENCIES

Multi-Cloud Platform Engineering

Self-Service Cloud Provisioning

Infrastructure as Code (IaC / Terraform)

Policy-Driven Orchestration

CSP Automation Framework Integration

Cloud Inventory & Governance

Banking Regulatory Compliance (SOX / GDPR)

AI-Powered Infrastructure & AIOps

WORK EXPERIENCE

IRIS SoftwareSep 2020 - Present

Sr. Specialist - Cloud Practice & SRE Lead | India | Clients: ADP, Charles Schwab, BMO

- Delivered **modeas** -- a high-throughput CI/CD automation platform handling **200+ builds/deployments per hour**, eliminating 10,000+ manual operational hours annually and improving deployment cadence by 600%; integrates GitHub, Jenkins, and cloud provisioning APIs across multi-cloud environments.
- Architected the **Cloud Platform Maturity Index (CPMI)** -- an enterprise cloud inventory and governance framework tracking capability, security, automation, and efficiency across ADP, Charles Schwab, and BMO; used in VP/C-suite quarterly reviews as a cloud posture benchmark.
- Led IaC-driven cloud foundation delivery via **Terraform, Helm, and Ansible** -- established automated cloud foundations, self-service provisioning workflows, and policy-driven release gates aligned to banking resiliency and security standards.
- Built the **Charles Schwab Platform Engineering team from scratch** (18 engineers) -- defined Architecture Decision Records (ADRs), reliability reviews, deployment governance, and incident response framework; achieved 99.9% release reliability within 18 months.
- Scaled **ADP SRE organization from 4 to 35 engineers** across India, Canada, and the US; reduced MTTR by 40%+ through Dynatrace + Prometheus observability stack and Ansible-driven automated remediation playbooks.
- Designed and deployed **GenAI assistants on Azure & AWS for BMO** -- integrating AI-powered automation tools into cloud operations pipelines for risk summarisation and Q&A, reducing manual analysis effort and demonstrating AI infrastructure integration in a regulated banking environment.

IRIS SoftwareJun 2018 - Sep 2020

Automation Technology Specialist | Toronto, Canada | Client: Royal Bank of Canada (RBC Insurance)

- Built the **Robo Deployment Framework** -- a Kubernetes-native, technology-agnostic self-service cloud provisioning platform; reduced application onboarding from **5 weeks to 5 hours (98% reduction)** and enabled 60+ teams to provision CI/CD pipelines without engineering intervention.
- Governed change management and SOX/GDPR compliance across **250+ production applications** -- implemented structured CI/CD change gates with automated audit trails and approval workflows; zero SOX exceptions over a two-year period.
- Led enterprise migration of **250+ applications across 60+ teams** from CA SCM/Harvest to GitHub, enabling modern CI/CD, self-service provisioning, and policy-driven release governance at scale.

IRIS SoftwareFeb 2017 - Jun 2018

Automation Architect | Toronto, Canada | Insurance & Capital Markets

- Designed fault-tolerant, container-orchestrated deployment pipelines using **Kubernetes and Helm** (zero-downtime rollouts); led RPA practice automating 80+ applications across heterogeneous stacks. Contributed to \$478K + \$180K Capital Markets SOW closures.

TechMahindra Pvt. Ltd.

Jul 2015 - Feb 2017

Technology Manager | Noida, India

- Led global cross-functional engineering teams on large-scale DevOps transformation and CI/CD pipeline standardisation programmes across enterprise clients; drove Agile delivery adoption.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET -- Automation Architect | India | Global Marketing Platforms

- Maintained **99.99% platform uptime** over 7 years through proactive SLI monitoring, automated recovery, and postmortem-driven improvement; modernised global marketing platforms via cloud migration and self-healing architectures supporting 200% user growth with zero critical incidents. Built CI/CD-integrated QA automation frameworks; administered Linux/Windows server infrastructure in Agile environments.

KEY PLATFORM DELIVERABLES

Robo Deployment Framework (RBC) Self-Service Provisioning

K8s-native, technology-agnostic self-service CI/CD provisioning platform. Reduced application onboarding from 5 weeks to 5 hours (98% reduction). Enabled 60+ teams across 250+ applications to self-serve pipelines with automated SOX compliance evidence.

Kubernetes | Helm | Python | Ansible | GitHub Actions | Jenkins

modeas -- CI/CD Automation Platform Cloud Automation

200+ builds/deployments per hour; eliminated 10,000+ manual ops hours annually (600% cadence improvement). Policy-driven orchestration integrating GitHub, Jenkins, Azure, and AWS provisioning APIs.

Python | Jenkins | GitHub Actions | Azure | AWS | Terraform

Cloud Platform Maturity Index (CPMI) Cloud Inventory & Governance

Enterprise cloud inventory framework tracking capability, security, automation, and efficiency across ADP, Charles Schwab, and BMO. Used in VP/C-suite quarterly reviews; deployed as a pre-sales cloud posture benchmark.

Azure | AWS | Terraform | Grafana | Dynatrace | Python

EDUCATION

Masters in Artificial Intelligence Woolf University	2024
General Management Program (GMP) ISB Hyderabad	2022
M.Sc in Computer Science Osmania University	2002

CERTIFICATIONS

Microsoft Certified: Azure Solutions Architect Expert (AZ-305)	2026
AWS Certified Solutions Architect - Associate (SAA-C01)	2026
Certified Kubernetes Application Developer (CKAD)	2025
AI-102: Designing and Implementing a Microsoft Azure AI Solution	2025
Certified SRE (iSRE) ITIL Certificate in IT Service Operations PMI-ACP Azure AI (AI-900)	

SKILLS

Cloud & IaC: Azure, AWS, Terraform, Helm, Ansible, AWS CDK	Containers: Kubernetes, Docker, CKAD-certified
CI/CD: Jenkins, GitHub Actions, GitLab, UrbanCode	Observability & AIOps: Dynatrace, Prometheus, Grafana, Splunk, AppDynamics
Programming: Python, Go, Bash, PowerShell, Groovy, C#.Net	AI/ML: Azure OpenAI, AWS Bedrock, AIOps, MLOps, GenAI pipelines
ITSM: ITIL, ServiceNow, Incident/Problem/Change Management	Languages: English, Hindi, Telugu
