EXPERIENCE

Sr. Specialist - Cloud Practice & SRE Lead

IRIS Software - India (Managed Services: ADP, Charles Schwab, BMO)

Sep 2020 - Present Hyderabad, India

- Led end-to-end ITSM-aligned service delivery for ADP - Incident, Problem, and Change Management; SLA/SLO compliance; runbooks and escalation governance across mission-critical enterprise application platforms.
- Drove MTTR reduction by 40%+ via RCA-driven postmortem culture, Ansible automated remediation, and structured Problem Management - cutting incident frequency across ADP's full application estate.
- Built cross-functional teams from 4 to 40 engineers across India, Canada, and the US (ADP); stood up Charles Schwab's 18-member Platform Engineering team from zero - introducing SRE, observability (Prometheus, Grafana, Dynatrace), and AI-driven automation to transform reactive operations.
- Delivered modeas CI/CD platform (200+ builds/hour) eliminating 10,000+ manual operational hours annually; managed vendor governance, capacity planning, and operational scorecards across multi-client managed services engagements.
- Led Cloud Practice development and business development at IRIS; presented operational outcomes to VP/C-suite stakeholders at ADP, Charles Schwab, and BMO; contributed to \$478K+ SOW closures.

Automation Technology Specialist

IRIS Software - Toronto, Canada (Managed Services: Royal Bank of Canada Insurance)

Jun 2018 - Sep 2020 Toronto, Canada

- Governed application support, change, and release management across 250+ .NET, Java, and multi-stack applications at RBC Insurance - ITIL-aligned processes, SOX/GDPR compliance, and audit-ready delivery.
- Designed the Robo Deployment Framework - a C#/PowerShell CI/CD orchestration platform for .NET Windows services and database deployments (SSIS, Oracle, SQL Server); reduced onboarding from 5 weeks to 5 hours across 60+ teams.
- Operationalised DORA metrics (Deployment Frequency, MTTR, Change Failure Rate); implemented Splunk observability pipelines and DevSecOps quality gates (SonarQube, JFrog) across all 250+ applications.

Automation Architect

IRIS Software - Toronto, Canada (Insurance & Capital Markets)

Feb 2017 - Jun 2018 Toronto, Canada

- Led enterprise automation delivery - 80+ applications and 250+ components automated across Java, NodeJS, .NET, Kafka, Salesforce, and Mainframe stacks; established Python and C# automation frameworks at scale.
- Designed fault-tolerant Kubernetes and Helm-orchestrated deployment pipelines for zero-downtime rollouts; contributed to \$478K+ SOW closures through pre-sales delivery leadership.

Technology Manager

TechMahindra Pvt. Ltd. - Noida, India (Client: Adobe)

Jul 2015 - Feb 2017 Noida, India

- Architected and delivered zero-downtime data centre migration for Adobe - full plan, execution, and cutover with no business disruption across all production workloads.
- Led SAP HANA upgrades; executed Informatica to SQL Server 2012 data and schema migration at enterprise scale including ETL re-engineering and data validation.

SUMMARY

20+ year Engineering Operations leader with deep managed services experience across global banking and enterprise clients (ADP, Charles Schwab, BMO, RBC, Microsoft). Extensive .NET background spanning Semantic Space, Microsoft (7 years), and IRIS Software. Expert in ITSM-aligned service delivery - incident management, problem management, SLA/SLO governance, MTTR reduction, and change/release management. Built and scaled cross-functional support and maintenance teams (4 to 40 engineers) while introducing SRE, DevOps, and AI-driven automation to transform reactive operations into proactive, high-quality service delivery.

KEY ACHIEVEMENTS

MTTR -40% - ADP Service Delivery

Transformed application support from reactive firefighting to proactive operations -- blameless postmortem culture + Ansible automated remediation cut MTTR by 40%+ and reduced incident frequency across enterprise platforms.

4 → 40 Cross-Functional Support Teams

Built ADP's engineering operations team from 4 to 40 engineers across India, Canada, and the US; stood up Charles Schwab's 18-member Platform Engineering team from zero with full SRE and ITSM governance.

5 Weeks → 5 Hours - .NET App Onboarding

Robo Deployment Framework (C#/PowerShell) reduced .NET application onboarding from 5 weeks to 5 hours (98% reduction) across 250+ apps and 60+ teams at RBC -- standardising support and maintenance processes at enterprise scale.

\$478K+ Practice & BD Growth

Contributed to \$478K+ SOW closures through pre-sales leadership and delivery excellence; developed IRIS Cloud Practice and drove business development across capital markets and banking clients.

Sr. SDET - QA, Automation & Production Engineering

Microsoft Corporation - India

 Jul 2007 - Dec 2014  Hyderabad, India

- Production Engineering owner for **.NET-based Sales & Marketing platforms** serving US, EMEA, and APAC subsidiaries - accountable for full IT operations lifecycle including incident response, RCA, and infrastructure administration across Windows and Linux; sustained **99.99% uptime over 7 years**.
- Built **QA automation frameworks integrated with CI/CD pipelines** - eliminating manual testing bottlenecks and enforcing quality gates across .NET, multi-stack application workloads at global scale.
