

Pavan Kumar Nayakanti

Regional Infrastructure Leader | Hybrid Cloud & 24x7 Ops | DR/BCP | Regulated FinTech | Multi-Cloud (Azure, AWS, GCP) | Relocating to Mumbai

+91-9440493097 | pavan.nayakanti@hotmail.com | linkedin.com/in/pavan-nayakanti | Pune, India (Relocating to Mumbai)

SUMMARY

Regional infrastructure and platform engineering leader with 20+ years delivering 24x7 reliable, secure, and scalable IT infrastructure for global financial services firms -- ADP, Charles Schwab, BMO, and RBC. Built and led regional engineering teams from the ground up (4 to 40 engineers across India, Canada, and the US), owned DR/BCP testing and audit readiness in SOX/GDPR-regulated environments, and drove cloud modernisation programmes across hybrid on-prem and multi-cloud estates. Combines infrastructure depth with C-suite communication -- presenting risk posture, SLA status, and resilience strategy to board-level stakeholders across three continents.

KEY ACHIEVEMENTS

\$

MTTR -40% -- FinTech Scale
Built AIOps-driven automated remediation and blameless postmortem culture across 35-engineer regional team at ADP -- MTTR cut 40%+ with no headcount increase.

+

Regional Team: 4 to 40 Engineers
Scaled ADP infrastructure org from 4 to 40 across India, Canada, and the US; built Schwab's 18-member Platform Engineering team from zero in one quarter.

R

98% Reduction in Onboarding Time
Robo Deployment Framework reduced RBC application onboarding from 5 weeks to 5 hours across 250+ applications and 60+ engineering teams.

M

200+ Deployments per Hour
modeas platform eliminated 10,000+ manual ops hours annually and accelerated deployment cadence 600% across major banking clients.

EXPERIENCE

Sr. Specialist -- Cloud Practice & SRE Lead

IRIS Software | India

Sep 2020 -- Present | Clients: ADP, Charles Schwab, BMO

- Owned **regional infrastructure strategy and roadmap** across multi-client banking platforms (ADP, Charles Schwab, BMO) -- aligning cloud, on-prem, and hybrid operations with global standards and SOX/GDPR regulatory requirements.
- Led **24x7 infrastructure operations** for ADP SRE -- on-call rotation governance, escalation frameworks, incident response, and automated remediation (Ansible, Python, Dynatrace) -- reducing MTTR by 40%+ across a 35-engineer regional organisation.
- Delivered **hybrid cloud infrastructure** for BMO's CCB migration -- on-premises to AWS using CDK, ECS Fargate, and Lambda; HA/DR designed from day one with RTO/RPO-aligned failover, tested under production load and fully audit-ready.
- Championed **infrastructure-as-code (Terraform)** and container orchestration (Kubernetes, Helm) across client environments -- improving release reliability to 99.9% and eliminating configuration drift.
- Built and maintained **full-stack observability** (Prometheus, Grafana, Dynatrace, MS AppInsights) -- enabling real-time alerting, root cause analysis, capacity planning, and proactive incident prevention.
- Scaled ADP's regional team from 4 to 40 engineers across India, Canada, and the US; built Charles Schwab's **18-member Platform Engineering team from zero** -- establishing DR/BCP review cadence, reliability governance, and cross-regional alignment.
- Managed **third-party vendor and MSP relationships** via operational scorecards, SLA governance, and structured escalation frameworks -- ensuring delivery quality met enterprise infrastructure standards.
- Established **Chaos Engineering (Keptn)** across ADP infrastructure -- proactive fault injection and failure scenario testing, converting reactive incident response to predictive resilience.
- Reported **infrastructure risk posture, SLA status, and incident trends** to VP and C-suite stakeholders at ADP, Charles Schwab, and BMO -- translating technical metrics into business impact language.
- Deployed **GenAI assistants for BMO** (Azure and AWS) -- risk summarisation and Q&A via BCRG/LTS pipelines -- reducing manual analysis effort on critical operational data.

Automation Technology Specialist

IRIS Software | Toronto, Canada

Jun 2018 -- Sep 2020 | Client: Royal Bank of Canada Insurance

- Owned **infrastructure delivery governance** across 250+ RBC applications -- standardising deployment workflows, enforcing change management, and ensuring audit-ready compliance across SOX/GDPR-regulated environments.
- Led **certificate management, vulnerability management, and automated patching** across 250+ applications -- integrating SAST/DAST/IAST scanning, SonarQube, JFrog Artifactory, and dependency management into CI/CD pipelines.
- Implemented **DORA framework** across RBC Wealth Management and Insurance (Azure DevOps) -- Deployment Frequency, MTTR, Change Failure Rate as primary engineering health metrics, driving measurable production stability improvement.
- Designed and delivered **Robo Deployment Framework** -- enterprise CI/CD orchestration platform enabling self-service pipelines for Windows services, database deployments (SSIS, Oracle, SQL Server), and 250+ application workloads.
- Led enterprise migration of **250+ applications across 60+ teams** from CA SCM/Harvest to GitHub Enterprise -- enabling modern DevOps, agile delivery, and self-service provisioning at scale.
- Governed **SOX/GDPR-compliant change management** at scale -- enforced audit-ready change transparency, environment segregation (RTB/CTB), and structured deployment workflows across the RBC Insurance estate.

Automation Architect

IRIS Software | Toronto, Canada

Feb 2017 -- Jun 2018 | Clients: Insurance & Capital Markets

- Designed **fault-tolerant, container-orchestrated deployment pipelines** (Kubernetes, Helm) enabling zero-downtime rollouts across capital markets platforms.
- Led RPA practice -- automating 80+ applications and 250+ components across heterogeneous stacks (Java, NodeJS, Kafka, Salesforce, Mainframe); pioneered Cognitive Process Automation (CPA/IPA).
- Contributed to \$478K DevOps SOW and enabled \$180K Capital Markets engagement through pre-sales architecture and delivery leadership.

Technology Manager

TechMahindra Pvt. Ltd. | Noida, India

Jul 2015 -- Feb 2017 | Client: Adobe

- Architected and executed **zero-downtime data centre migration** for Adobe -- full plan, execution, and production cutover with no service disruption across all critical business applications.
- Led SAP HANA upgrades and enterprise data migration (Informatica to SQL Server 2012) -- schema redesign, ETL re-engineering, and data validation at scale with cross-functional global teams.

Sr. SDET -- QA, Automation & Production Engineering

Microsoft Corporation | India

Jul 2007 -- Dec 2014 | Sales & Marketing Platforms (US, EMEA, APAC)

- Held dual mandate as Sr. SDET and **Production Engineering owner** for business-critical Sales and Marketing platforms serving Microsoft subsidiaries across US, EMEA, and APAC.
- Sustained **99.99% uptime** over a 7-year tenure -- owned availability, scalability, and security objectives across network, infrastructure, and application tiers; zero customer-impacting incidents.
- Managed production operations end-to-end: incident response, RCA, infrastructure administration (Windows and Linux), and cross-team coordination for global sales operations continuity.

EDUCATION

Masters in Artificial Intelligence	2024
Woolf University	
General Management Program (GMP)	2022
ISB Hyderabad	
M.Sc in Computer Science	2002
Osmania University	
B.Sc in Electronics	2000
Kakatiya University	

CERTIFICATIONS

Azure Solutions Architect Expert (AZ-305)

Microsoft -- 2026

AWS Solutions Architect -- Associate (SAA-C01)

Amazon Web Services -- 2026

Google Cloud Professional Cloud Architect (PCA)

Google Cloud -- 2026

Certified Kubernetes Application Developer (CKAD)

CNCF -- 2025

Certified SRE (iSRE)

iSRE Institute

ITIL Certificate in IT Service Operations

AXELOS

PMI Agile Certified Professional (PMI-ACP)

Project Management Institute
