EXPERIENCE

Sr. Specialist — Cloud Practice & SRE Lead

IRIS Software — India (Clients: ADP, Charles Schwab, BMO)

Sep 2020 – Present Hyderabad, India

- Led end-to-end on-prem to AWS cloud migration programme for BMO — **multi-workload, phased delivery**; HA/DR compliance and regulatory standards built into programme plan from day one.
- Governed multi-location delivery across **India, Canada, and the US** — ADP SRE programme scaled from 4 to 40 engineers; structured governance, escalation frameworks, and performance management across geographies.
- Governed MSP and vendor delivery quality via **operational scorecards, SLA tracking, and structured escalation/remediation frameworks** across ADP, Charles Schwab, and BMO — shifting partners from activity-based to outcome-based delivery.
- Provided **executive-level programme status reporting** to VP and C-suite stakeholders at ADP, Charles Schwab, and BMO — monthly governance forums with fact-based updates on delivery, risk, and financial performance.
- Delivered *modeas* infrastructure automation programme — **200+ builds/hour**; programme managed end to end: scope definition, resource allocation, delivery tracking, and outcome measurement (10,000+ manual hours eliminated annually).
- Architected Cloud Platform Maturity Index (CPMI) and DevOps as a Service — **enterprise governance frameworks** defining technology delivery standards and capability maturity across three major banking clients.
- Established Chaos Engineering programme (Keptn) for ADP SRE — risk identification, scenario planning, and remediation governance for mission-critical financial workloads; MTTR reduced **40%+**.

Automation Technology Specialist

IRIS Software — Canada (Client: Royal Bank of Canada Insurance)

Jun 2018 – Sep 2020 Toronto, Canada

- Governed enterprise-wide DevOps and change management across **250+ applications and 60+ teams** — standardised delivery workflows, SOX/GDPR compliance, and audit-ready change transparency.
- Led **GitHub Enterprise migration programme** for RBC — 250+ applications across 60+ teams migrated from CA SCM/Harvest; phased delivery, stakeholder alignment, and cutover governance across the full programme lifecycle.
- Inducted **DORA framework** across RBC Wealth Management and Insurance using Azure DevOps — Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as primary programme health metrics.
- Managed vendor delivery governance — automated artifact retrieval and approval workflows (Python/Ansible); enforced **SOX-compliant change evidence pipelines** across 250+ regulated application workloads.
- Contributed to **\$200K+ in new project acquisitions** through pre-sales technical scoping and programme leadership at RBC subsidiaries.

Automation Architect

IRIS Software — Canada (Insurance & Capital Markets)

Feb 2017 – Jun 2018 Toronto, Canada

- Led technical scoping, effort estimation, and governance for a **\$478K SOW** DevOps engagement — 12-member team, 18-month delivery; programme delivered within agreed scope and budget.
- Led RPA delivery programme — **80+ applications, 250+ components** automated across Java, NodeJS, Kafka, Salesforce, and Mainframe stacks; standardised Python frameworks and offshore delivery team at scale.
- Designed fault-tolerant, container-orchestrated deployment pipelines (Kubernetes/Helm) — programme managed from architecture through production; zero-downtime rollouts across capital markets platforms.

SUMMARY

Infrastructure programme leader with 20+ years governing complex, multi-stream delivery for Tier-1 BFSI institutions. Experienced in multi-location team management (India, Canada, US), vendor accountability, and C-suite stakeholder engagement at ADP, Charles Schwab, BMO, and RBC. ITIL-certified, PMI-ACP, with strong BFSI regulatory awareness and proven delivery at scale.

KEY ACHIEVEMENTS

BMO Infrastructure Programme
End-to-end multi-workload cloud migration; phased delivery with HA/DR compliance and regulatory standards built in from day one.

Programme Scale: 4 → 40
Built and governed ADP's global SRE programme across India, Canada, and the US; multi-stream, multi-location delivery with structured governance.

\$478K SOW — On Scope
Led technical scoping, estimation, and delivery governance for a \$478K DevOps SOW; 12-member team, 18-month delivery, within budget.

Vendor Governance at Scale
Governed MSP delivery across three Tier-1 banks via scorecards, SLA tracking, and structured escalation; shifted partners to outcome-based delivery.

CERTIFICATIONS

PMI Agile Certified Professional (PMI-ACP)

Project Management Institute

ITIL® IT Service Operations

AXELOS

Certified SRE (ISRE)

DevOps Institute

Azure Solutions Architect Expert (AZ-305)

Microsoft — 2026

AWS Certified Solutions Architect – Associate

Amazon — 2026

GCP Professional Cloud Architect

Google — 2026

Certified Kubernetes Application Developer (CKAD)

CNCF — 2025

Technology Manager

TechMahindra Pvt. Ltd. — India (Client: Adobe)

 Jul 2015 – Feb 2017  Noida, India

- Led cross-functional global programme for Adobe’s **data centre relocation** — zero-downtime migration; full programme ownership from plan through cutover, aligning infrastructure, technology, and business timelines.
- Executed SAP HANA upgrades and SQL Server migration programme — ETL re-engineering, schema redesign, and enterprise-scale data validation; delivered with minimal service disruption.

Sr. SDET — QA, Automation & Production Engineering

Microsoft Corporation — India

 Jul 2007 – Dec 2014  India

- Dual mandate as Sr. SDET and Production Engineering owner for Sales & Marketing platforms serving US, EMEA, and APAC — **99.99% uptime sustained over 7 years**; end-to-end programme accountability from design through production.
- Managed production operations: incident response, RCA, infrastructure administration (Windows/Linux), and cross-functional coordination across global engineering teams.
