● Hyderabad, India

20+ year enterprise cloud and platform engineering leader -- built two platform engineering orgs from scratch, governed DevSecOps across 250+ applications at RBC Insurance, and deployed GenAI risk assistants at BMO on AWS & Azure. Driving multi-cloud strategy, reference architecture, and engineering excellence at Senior Director level.

Core Competencies

Enterprise Cloud Strategy

Multi-Cloud Architecture (AWS + Azure)

Platform Engineering Leadership

Reference Architecture & Governance

DevSecOps at Scale

Generative AI Adoption

SRE & Reliability Engineering

Global Team Building

Technology Selection & PoC Leadership

C-Suite Stakeholder Engagement

Technical Skills

Cloud & IaC

AWS (CDK, ECS Fargate, Lambda), Azure, Kubernetes, Helm, Terraform, Docker

DevSecOps & CI/CD

GitHub Actions, Jenkins, UrbanCode, GitLab, Ansible, SOX/GDPR compliance

Observability

Dynatrace, Prometheus, Grafana, Splunk, AppInsights

AI & Automation

GenAI (Anthropic, Azure, AWS), AIOps, MLOps, Python, Bash

SRE

SLI/SLO, Error Budgets, DORA, Chaos Engineering (Keptn), ITIL, ServiceNow

Education

- **Masters in Artificial Intelligence** 2024
Woolf University
- **General Management Program** 2022
ISB Hyderabad
- **M.Sc in Computer Science** 2002
Osmania University

Work Experience

IRIS Software

Sep 2020 - Present

Cloud Practice & SRE Lead -- Senior Specialist

India | Clients: ADP, Charles Schwab, BMO

- ⊕ Architected the **Cloud Platform Maturity Index (CPMI)** -- a reference architecture framework and reusable engineering pattern set adopted across three major banking clients (ADP, Schwab, BMO) to standardise cloud capability, security posture, and automation maturity.
- ⊕ Delivered **DevOps as a Service** framework: self-service CI/CD pipelines, IaC-driven provisioning, and governance tooling deployed across ADP, Schwab, and BMO -- reducing time-to-production and enforcing architectural standards at scale.
- ⊕ Built and managed two platform engineering organisations from zero: scaled **ADP's SRE org from 4 to 35 engineers** across India, Canada, and the US; established **Charles Schwab's 18-member platform engineering team** including SRE practices, reliability reviews, and incident governance.
- ⊕ Led end-to-end **on-premises to AWS cloud migration for BMO**: CDK-enabled deployment pipelines for .NET applications on ECS Fargate and Lambda with High Availability and Disaster Recovery built in from day one.
- ⊕ Designed and deployed **GenAI risk assistants (Azure and AWS)** for BMO -- enabling risk summarisation and interactive Q&A via BCRG and LTS pipelines, reducing manual analysis effort and accelerating insights delivery.
- ⊕ Led technology selection workshops and PoC initiatives for RBC, ADP, and BMO -- evaluating and onboarding GenAI platforms, AIOps tools, and cloud-native observability products; contributed to \$478K and \$180K engagements via pre-sales architecture leadership.
- ⊕ Delivered **modeas**: high-throughput deployment platform handling 200+ builds/deployments per hour, eliminating 10,000+ manual operational hours annually and improving deployment cadence by 600%.
- ⊕ Presented reliability strategies, cloud architecture decisions, and SRE metrics directly to VP and C-suite stakeholders at ADP, Schwab, and BMO; conducted quarterly enterprise-wide training (200+ participants per session).

◆ Certifications

- ⊕ AWS Certified Solutions Architect - Associate (2026)
- ⊕ Azure Solutions Architect Expert (AZ-305, 2026)
- ⊕ Certified Kubernetes Application Developer (CKAD, 2025)
- ⊕ AI-102: Azure AI Solution Design (2025)
- ⊕ DP-100: Data Science on Azure (2025)
- ⊕ Certified SRE (iSRE)
- ⊕ PMI Agile Certified Professional (PMI-ACP)
- ⊕ ITIL Certificate in IT Service Operations

IRIS Software

Jun 2018 - Sep 2020

Automation Technology Specialist

Toronto, Canada | Client: Royal Bank of Canada Insurance

- ⊕ Inducted the **DORA framework** across RBC Wealth Management and Insurance -- establishing Deployment Frequency, Lead Time for Changes, Change Failure Rate, and MTTR as primary engineering health metrics, driving measurable improvement in delivery performance and production stability.
- ⊕ Established **DevSecOps principles** across RBC's 250+ applications and 60+ teams -- introducing observability standards, SOX/GDPR-compliant deployment governance, and reliability-focused deployment gates; reduced application onboarding from 5 weeks to 5 hours (98% reduction) via the Robo Deployment Framework.
- ⊕ Embedded **Run the Bank (RTB) and Change the Bank (CTB)** principles across RBC's engineering delivery model -- strict environment segregation between production and non-production while maintaining continuous, frictionless deployment cadence.
- ⊕ Led enterprise migration of 250+ applications from CA SCM/Harvest to GitHub -- enabling modern CI/CD, self-service provisioning, and agile collaboration at scale across RBC subsidiaries including Insurance and Wealth Management.
- ⊕ **RBC Insurance direct domain engagement:** designed and governed cloud-compliant DevSecOps architecture for insurance application workloads, aligning delivery with regulatory requirements and audit standards.

IRIS Software

Feb 2017 - Jun 2018

Automation Architect

Toronto, Canada | Clients: Insurance & Capital Markets

- ⊕ Designed fault-tolerant, container-orchestrated deployment pipelines using Kubernetes and Helm for capital markets platforms; drove RPA practice delivery automating 80+ applications across Insurance and Capital Markets.
- ⊕ Pioneered Cognitive and Intelligent Process Automation (CPA/IPA) -- expanding the automation capability model and enabling pre-sales teams to close \$478K and \$180K SOWs through credible technical architecture leadership.

TechMahindra

Jul 2015 - Feb 2017

Technology Manager

Noida, India | Client: Adobe

- ⊕ Architected and delivered zero-downtime business application migration during Adobe's data centre relocation; led SAP HANA upgrades and ETL re-engineering from Informatica to SQL Server at enterprise scale.

Microsoft Corporation

Jul 2007 - Dec 2014

Sr. SDET -- QA, Automation & Production Engineering

India | Sales & Marketing Platforms -- US, EMEA, APAC

- ⊕ Held dual mandate as Sr. SDET and Production Engineering owner for business-critical Sales & Marketing platforms serving Microsoft subsidiaries across US, EMEA, and APAC -- accountable for complete quality and operational lifecycle including all non-functional objectives (performance, availability, scalability, security) achieving sustained 99.99% uptime over 7 years.
- ⊕ Built QA automation frameworks integrated with CI/CD pipelines; partnered with product and infrastructure teams in Agile environment to define reliability targets, manage error budgets, and align quality objectives to business outcomes for global sales operations.

⊕ Key Achievements

- ⊕ **CPMI Framework:** Reference architecture adopted across ADP, Schwab, and BMO -- measurable improvement in cloud security posture and automation maturity across three F500 banking clients.
- ⊕ **Team Building at Scale:** Built two platform engineering orgs from zero -- ADP 4 to 35 engineers; Schwab 18-member platform team. Both from ground up with career ladders, SRE practices, and incident governance.
- ⊕ **DORA at RBC:** Inducted DORA framework (Deployment Frequency, Lead Time, Change Failure Rate, MTTR) across RBC Wealth Management and Insurance -- measurable improvement in delivery performance and production stability.
- ⊕ **DevSecOps at Scale:** Governed 250+ applications across 60+ teams -- SOX/GDPR compliant, audit-ready, 5-week to 5-hour onboarding reduction via Robo Deployment Framework.
- ⊕ **GenAI in Production:** Deployed GenAI risk summarisation and Q&A assistants at BMO on Azure and AWS -- live in production, reducing manual analysis effort and accelerating risk insights.
- ⊕ **modeas Platform:** 200+ builds/deployments per hour, 10,000+ manual hours eliminated annually, 600% deployment cadence improvement.
