

PAVAN KUMAR NAYAKANTI

✉ pavan.nayakanti@hotmail.com in linkedin.com/in/pavan-nayakanti • Hyderabad, India
🔗 github.com/pavannayakanti

Leader-of-leaders with 20+ years delivering scalable, high-performance enterprise applications and building engineering organizations at Fortune-level clients -- deep expertise in DevSecOps, CI/CD, application integration (REST/SOAP), and compliance-governed delivery (GDPR/SOX), with a track record of coaching and growing multi-team engineering talent at ADP, Charles Schwab, and BMO.

Core Competencies

Leader-of-Leaders Engineering Management

DevSecOps & Secure Coding Standards

CI/CD & Agile Delivery (PMI-ACP)

Application Integration (REST / SOAP)

Compliance: GDPR / SOX / PCI-DSS Adjacent

Vendor Management & Partnerships

Scalable High-Performance Application Delivery

Executive Stakeholder Communication

Technical Skills

Cloud & Platform

Azure (AZ-305), AWS, OCI-compatible, Kubernetes, Docker, Terraform, AWS CDK

Application Integration

REST APIs, SOAP, Data Exchange, Python, Groovy/JVM, C#.Net, PowerShell, Bash

CI/CD & DevSecOps

Azure DevOps, GitHub Actions, Jenkins, UrbanCode, automated testing, secure pipelines

Data & Middleware

Oracle DB, SQL Server, SAP HANA, SSIS, ServiceNow

Observability & Reliability

Dynatrace, Prometheus, Grafana, Splunk, SLI/SLO, DORA Metrics, ITIL

Compliance & Governance

SOX, GDPR, audit-ready change management, regulated change pipelines

AI / GenAI

Azure AI (AI-102), AIOps, GenAI Solutions (Azure & AWS)

Education

- **Masters in Artificial Intelligence** 2024
Woolf University
- **General Management Program** 2022
ISB Hyderabad
- **M.Sc Computer Science** 2002
Osmania University

Work Experience

IRIS Software

Sep 2020 -- Present

Sr. Specialist -- Cloud Practice & Engineering Leader

Hyderabad, India | Clients: ADP, Charles Schwab, BMO

- ⊕ Led as **leader-of-leaders** -- scaled ADP's engineering organization from 4 to 40 engineers and architects across India, Canada, and the US, with direct people management of engineering managers and senior ICs.
- ⊕ Built Charles Schwab's **18-member Platform Engineering team from scratch**, establishing engineering standards, agile practices, and talent development programmes; delivered 99.9% application reliability.
- ⊕ Ensured **DevSecOps best practices and secure coding standards** across CI/CD pipelines -- governed enterprise-wide deployment workflows with structured review gates, change approval, and automated security scanning.
- ⊕ Delivered **high-performance application delivery** via modeas -- a CI/CD platform handling 200+ builds/deployments per hour, eliminating 10,000+ manual operational hours annually and improving cadence by 600%.
- ⊕ Led **on-premises to AWS cloud migration for BMO** -- CDK-enabled deployment pipelines for .NET applications across ECS Fargate and Lambda with HA/DR from day one; zero production incidents during cutover.
- ⊕ Partnered with product, architecture, and operations stakeholders to **align roadmaps and engineering strategy** to business targets -- drove technical solutions for multi-client enterprise platforms serving global operations.
- ⊕ Managed **vendor partnerships and delivery quality** via operational scorecards, SLA tracking, and structured escalation frameworks across MSP and third-party technology providers.
- ⊕ Delivered **executive-ready communication** -- quarterly C-suite and VP presentations on engineering health, delivery targets, reliability strategies, and architectural outcomes.

◆ Certifications

- ⊕ Azure Solutions Architect Expert (AZ-305) -- 2026
- ⊕ PMI Agile Certified Professional (PMI-ACP)
- ⊕ Certified SRE (iSRE)
- ⊕ Certified Kubernetes Application Developer (CKAD) -- 2025
- ⊕ Azure AI Solution Design (AI-102) -- 2025
- ⊕ AWS Solutions Architect Associate (SAA-C01)
- ⊕ ITIL Certificate in IT Service Operations

IRIS Software

Jun 2018 -- Sep 2020

Automation Technology Specialist -- DevSecOps & Compliance Engineering

Toronto, Canada | Client: Royal Bank of Canada Insurance

- ⊕ Governed enterprise-wide DevOps and **compliance-regulated change management** across 250+ applications -- standardized deployment workflows enforcing **SOX and GDPR** standards with full audit-ready change evidence.
- ⊕ Designed the **Robo Deployment Framework** -- a CI/CD orchestration platform enabling self-service release pipelines with automated artifact retrieval and approval workflows; reduced onboarding from 5 weeks to 5 hours (98% reduction).
- ⊕ Inducted and operationalized **DORA framework** across RBC Wealth Management and Insurance -- established Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as primary engineering health metrics.
- ⊕ Led enterprise migration of **250+ applications across 60+ teams** from CA SCM/Harvest to GitHub, enabling modern CI/CD and self-service provisioning at scale under regulated change constraints.
- ⊕ Implemented **Splunk-based log aggregation and REST API-integrated alerting pipelines** within CI/CD workflows -- enabling proactive detection and rapid response to production incidents.

IRIS Software

Feb 2017 -- Jun 2018

Automation Architect -- Capital Markets & Insurance

Toronto, Canada

- ⊕ Led RPA practice delivery -- automated **80+ applications and 250+ components** across heterogeneous stacks including Java, NodeJS, Kafka, Salesforce, and Mainframe via REST and SOAP integrations.
- ⊕ Designed fault-tolerant, container-orchestrated deployment pipelines using Kubernetes and Helm for **zero-downtime rollouts** across high-throughput capital markets platforms.

TechMahindra

Jul 2015 -- Feb 2017

Technology Manager -- Enterprise Application Engineering

Noida, India | Client: Adobe

- ⊕ Executed end-to-end **data and code migration from Informatica to SQL Server 2012** for Adobe -- schema redesign, ETL re-engineering, and enterprise data validation at scale.
- ⊕ Architected **zero-downtime business application migration** during Adobe's data centre relocation -- owned full plan, execution, and cutover across all production workloads.

Microsoft Corporation

Jul 2007 -- Dec 2014

Sr. SDET -- Application Engineering & Production Operations

Hyderabad, India | Sales & Marketing Platforms (US, EMEA, APAC)

- ⊕ Full ownership of quality and production lifecycle for enterprise **Sales & Marketing applications** serving tens of thousands of users globally -- sustained **99.99% uptime over 7 years**.
- ⊕ Built CI/CD-integrated QA automation frameworks -- embedded automated regression, service virtualisation, and performance testing into release gates for globally distributed engineering teams.
- ⊕ Partnered with product and infrastructure teams in an **Agile environment** to define reliability targets, manage error budgets, and align quality objectives to business outcomes.
- ⊕ Modernized customer-facing platforms through cloud migration and **self-healing architectures**, supporting 200% user growth with zero platform reliability degradation.

Semantic Space Technologies

Jan 2005 -- Jun 2007

Senior Software Testing Engineer

India | Client: CFC / Bank of America

- ⊕ Sole L3 Analyst from India for the Statusmart application -- supported **3,000+ sales team members**; authored and optimised **SQL scripts on Oracle DB and SQL Server**, developed ETLs using SSIS.

Key Delivery Highlights

Compliance-Governed CI/CD Platform -- RBC (250+ Apps)

DevSecOps & Compliance

Designed Robo Deployment Framework -- self-service CI/CD orchestration for 250+ applications under SOX/GDPR compliance. Automated artifact retrieval and approval workflows with full audit evidence pipelines. Reduced application onboarding time 98% (5 weeks to 5 hours). Migrated 60+ teams to GitHub with zero compliance gaps.

modeas -- Enterprise Application Delivery Platform

Scalable Application Delivery

Architected and delivered a high-throughput deployment platform handling 200+ builds/deployments per hour for enterprise banking applications. Eliminated 10,000+ manual operational hours annually. Improved deployment cadence 600%. Governed via Terraform IaC with self-healing pipeline capabilities on Azure and AWS.

ADP Engineering Organization Scale-Up (4 to 40 Engineers)

Leader-of-Leaders

Built and scaled ADP's engineering organization from 4 to 40 engineers across India, Canada, and the US. Established engineering standards, agile practices, on-call governance, and talent development frameworks. Delivered measurable improvement in delivery predictability and engineering health metrics across multi-team organization.
