PROFESSIONAL SUMMARY

Director-level SRE leader with 22 years owning reliability programmes across global financial platforms -- defining SLIs/SLOs, building observability strategies, instituting blameless postmortem culture, and scaling engineering teams from scratch. Grew ADP's SRE organisation from 4 to 35 engineers, reduced MTTR by 40%+ through automated remediation, and built Charles Schwab's Platform Engineering team from the ground up. Deep expertise in CI/CD automation (Jenkins, GitLab, Ansible), IaC (Terraform, AWS CDK), and full-stack observability (Dynatrace, Prometheus, Grafana, Splunk) across regulated financial services environments. Proven communicator at VP and C-suite level -- translating reliability metrics into business outcomes for ADP, Charles Schwab, BMO, and RBC.

CORE COMPETENCIES

SLI / SLO Definition & Enforcement

Full-Stack Observability Strategy

Incident Response & Blameless Postmortems

CI/CD Pipeline Ownership

Infrastructure as Code (Terraform / AWS CDK)

24x7 On-Call Programme Design

Multi-Team SRE Leadership

Regulated Industry Reliability (SOX / GDPR)

WORK EXPERIENCE

IRIS SoftwareSep 2020 - Present

Sr. Specialist - Cloud Practice & SRE Lead | India | Clients: ADP, Charles Schwab, BMO

- Defined and governed **SLOs, SLIs, and error budgets** across multi-client cloud platforms (ADP, Charles Schwab, BMO) -- establishing reliability thresholds aligned to business commitments and customer SLAs.
- Built and led **ADP's SRE organisation from 4 to 35 engineers** across India, Canada, and the US -- instituting blameless postmortem culture, structured on-call rotations (24x7, tiered escalation), and automated remediation workflows using Ansible and Python. Reduced **MTTR by 40%+**.
- Deployed full-stack observability for ADP: **Prometheus + Grafana + Dynatrace** correlated stack enabling real-time alerting, proactive bottleneck detection, and root cause analysis across application and infrastructure layers.
- Built **Charles Schwab's Platform Engineering team from scratch** (18 engineers) -- defined reliability reviews, incident governance, deployment standards, and release engineering practices; achieved 99.9% release reliability within 18 months.
- Established **Chaos Engineering practices using Keptn** at ADP -- proactively identifying fault scenarios and hardening platform reliability; converted reactive operations to predictive reliability management.
- Designed and deployed **GenAI-based operations assistants on Azure & AWS for BMO** -- integrating AI-powered tooling into cloud operations pipelines; demonstrated emerging technology adoption in a regulated banking environment.

IRIS SoftwareJun 2018 - Sep 2020

Automation Technology Specialist | Toronto, Canada | Client: Royal Bank of Canada (RBC)

- Designed and delivered the **Robo Deployment Framework** -- a Kubernetes-native, technology-agnostic CI/CD provisioning platform reducing application onboarding from **5 weeks to 5 hours** (98% reduction) across 250+ applications and 60+ teams.
- Governed SOX/GDPR-compliant change management for **250+ production applications** -- structured CI/CD change gates with automated audit trails; zero SOX exceptions over two years. Established SRE observability standards using Splunk-based log aggregation integrated with CI/CD workflows.
- Led enterprise migration of 250+ applications across 60+ teams from CA SCM/Harvest to **GitHub**, enabling modern self-service CI/CD and policy-driven release governance at scale.

IRIS SoftwareFeb 2017 - Jun 2018

Automation Architect | Toronto, Canada | Insurance & Capital Markets

- Designed fault-tolerant, container-orchestrated deployment pipelines using **Kubernetes and Helm** (zero-downtime rollouts); led RPA delivery automating 80+ applications across heterogeneous stacks. Contributed to \$478K + \$180K Capital Markets SOW closures.

TechMahindra Pvt. Ltd.

Jul 2015 - Feb 2017

Technology Manager | Noida, India

- Led cross-functional global engineering teams delivering DevOps transformation programmes; drove Agile delivery adoption and CI/CD pipeline standardisation across enterprise clients.
- Microsoft Corporation Jul 2007 - Dec 2014
- Sr. SDET -- Automation Architect | India | Global Marketing Platforms
- Maintained **99.99% platform uptime** over 7 years through proactive SLI monitoring, automated recovery, and postmortem-driven improvement cycles; modernised global marketing platforms via cloud migration and self-healing architectures supporting 200% user growth with zero critical incidents. Built CI/CD-integrated QA automation frameworks; administered Linux/Windows server infrastructure.

KEY RELIABILITY DELIVERABLES

ADP SRE Programme SLOs + Observability + On-Call

End-to-end SRE programme built from zero: SLI/SLO governance, full-stack observability (Dynatrace + Prometheus + Grafana), 24x7 on-call rotations, chaos engineering (Keptn), blameless postmortems. Grew org 4 to 35 engineers. MTTR reduced 40%+.

Dynatrace | Prometheus | Grafana | Ansible | Keptn | Python | AWS | ITIL

Robo Deployment Framework (RBC) CI/CD Automation

K8s-native, technology-agnostic CI/CD provisioning platform. Reduced onboarding from 5 weeks to 5 hours (98%). 250+ applications, 60+ teams. Automated SOX-compliant change evidence for every deployment.

Kubernetes | Helm | Python | Ansible | GitLab | Jenkins | Terraform

modeas -- High-Throughput Deployment Platform Release Engineering

200+ builds/deployments per hour; eliminated 10,000+ manual operational hours annually (600% cadence improvement). Feature flag-driven release orchestration integrated with cloud provisioning APIs (AWS, Azure).

Jenkins | GitHub Actions | AWS | Azure | Terraform | Ansible

EDUCATION

Masters in Artificial Intelligence Woolf University	2024
General Management Program (GMP) ISB Hyderabad	2022
M.Sc in Computer Science Osmania University	2002

CERTIFICATIONS

Certified SRE (iSRE)	
Microsoft Certified: Azure Solutions Architect Expert (AZ-305)	2026
AWS Certified Solutions Architect - Associate (SAA-C01)	2026
Certified Kubernetes Application Developer (CKAD)	2025
ITIL Certificate in IT Service Operations PMI Agile Certified Professional (PMI-ACP) AI-102 Azure AI Solution	

SKILLS

Observability: Dynatrace, Prometheus, Grafana, Splunk, AppDynamics, MS App Insights, Telegraf

CI/CD: Jenkins, GitLab, GitHub Actions, Ansible, UrbanCode **IaC:** Terraform, AWS CDK, AWS CloudFormation, Helm, Ansible

Cloud: AWS, Microsoft Azure, Kubernetes, Docker, CKAD-certified

Reliability: SLI/SLO, Error Budgets, Chaos Engineering (Keptn), Self-Healing, ITIL, ServiceNow

Programming: Python, Go, Bash, PowerShell, Groovy **Languages:** English, Hindi, Telugu
