EXPERIENCE

Sr. Specialist - Cloud Practice & SRE Lead

IRIS Software - India (Clients: ADP, Charles Schwab, BMO)

📅 Sep 2020 - Present 📍 Hyderabad, India

- **Global SRE Team Leadership (ADP):** Scaled ADP SRE organization from 4 to 35 engineers and architects across India, Canada, and the US - establishing hiring pipelines, performance frameworks, career development tracks, and 24/7 on-call rotas for mission-critical financial services infrastructure.
- **ITIL-Based Incident, Problem & Change Management:** Implemented ITIL-aligned incident response and postmortem programmes for ADP SRE; blameless postmortem culture, structured RCA workflows, automated remediation (Ansible + Python) - reducing MTTR by 40%+; enforced change governance across 250+ RBC applications with SOX/GDPR compliance and audit-ready transparency.
- **Infrastructure Platform Engineering & Cloud Modernization (BMO):** Led end-to-end on-premises to AWS cloud migration for BMO - Terraform and AWS CDK deployment pipelines for .NET workloads on ECS Fargate and Lambda, with HA/DR architecture and BCP-compliant failover built in from day one; managed disaster recovery readiness across multi-cloud platforms.
- **KPI, SLO & Observability Governance:** Defined and governed SLI/SLO frameworks and error budgets across ADP, Charles Schwab, and BMO; deployed Prometheus, Grafana, Dynatrace, and Splunk as platform-wide observability infrastructure; presented reliability KPIs and resiliency architectures directly to VP and C-suite stakeholders.
- **Platform Engineering & Automation:** Delivered modern high-throughput deployment platform (200+ builds/hour); architected CPMI governance framework with standardised IaC (Terraform, CDK), cloud security controls, and reusable infrastructure templates across three major banking clients.
- **Vendor & MSP Governance:** Governed MSP and vendor delivery quality through operational scorecards, SLA tracking, and structured escalation/remediation frameworks across ADP, Schwab, and BMO engagements.
- **Team Building at Scale (Charles Schwab):** Built 18-member Platform Engineering team from the ground up at Charles Schwab - establishing SRE practices, reliability reviews, incident governance, and engineering culture; conducted quarterly training sessions for up to 200 participants per session.

Automation Technology Specialist

IRIS Software - Toronto, Canada (Client: Royal Bank of Canada)

📅 Jun 2018 - Sep 2020 📍 Toronto, Canada

- **Regulatory Compliance & Change Governance:** Governed enterprise-wide DevOps and change management across 250+ applications at RBC; enforced SOX/GDPR compliance, OAuth2 security, SAST/DAST/IAST scanning, and audit-ready change transparency - producing compliance evidence for regulatory reviews.
- **DORA Metrics & Infrastructure KPIs:** Inducted DORA framework (Deployment Frequency, MTTR, Change Failure Rate, Lead Time) across RBC Wealth Management and Insurance via Azure DevOps; implemented Splunk observability pipelines - establishing measurable engineering health baselines for production operations.
- **Large-Scale Infrastructure Migration:** Automated migration of 250+ applications across 60+ teams from CA SCM/Harvest to GitHub Enterprise; designed and delivered Robo Deployment Framework - reducing application onboarding from 5 weeks to 5 hours (98% reduction).
- Established SRE principles across RBC Insurance: observability standards, incident classification, reliability-focused deployment gates, and Run the Bank / Change the Bank segregation across 250+ production application workloads.

SUMMARY

20+ year infrastructure engineering leader with a proven track record scaling global SRE and platform teams (4 to 35 engineers), implementing ITIL-based incident/problem/change management, and driving hybrid cloud modernization at Tier-1 banking scale (ADP, Charles Schwab, BMO, RBC). Deep expertise in AWS and Azure cloud platforms, Terraform/CDK IaC, Kubernetes, DR/BCP architecture, and regulatory compliance (SOX, GDPR) in 24/7 banking environments. AWS Certified Solutions Architect and ITIL-certified. Consistent track record presenting reliability strategy and infrastructure KPIs to VP and C-suite stakeholders across global financial services organizations.

KEY ACHIEVEMENTS

- ↑ **SRE Org: 4 to 35 Engineers**
Scaled ADP's global SRE organization across India, Canada, and the US; established 24/7 on-call coverage, performance frameworks, and engineering culture.
- ↓ **MTTR -40% via ITIL + AIOps**
Blameless postmortem culture + Ansible automated remediation + Dynatrace/Prometheus observability at ADP SRE; measurable MTTR reduction across multi-cloud platforms.
- \$ **BMO Cloud Migration + HA/DR**
Led on-prem to AWS migration for BMO: Terraform + CDK pipelines, ECS Fargate, Lambda, HA/DR and BCP compliance built in from day one.
- ★ **98% Onboarding Reduction (RBC)**
SOX/GDPR-compliant deployment framework cut app onboarding from 5 weeks to 5 hours across 250+ applications; governed change management for 60+ teams.

Automation Architect

IRIS Software - Toronto, Canada (Insurance & Capital Markets)

Feb 2017 - Jun 2018 Toronto, Canada

- Designed container-orchestrated deployment pipelines (Kubernetes, Helm) for zero-downtime rollouts; led automation delivery across 80+ applications; drove \$478K SOW closure and \$180K Capital Markets engagement through pre-sales architecture and delivery leadership.

Technology Manager

TechMahindra Pvt. Ltd. - India (Client: Adobe)

Jul 2015 - Feb 2017 Noida, India

- Architected zero-downtime data centre migration for Adobe - owned full plan, execution, and cutover across all production workloads; led SAP HANA upgrades and ETL migration at enterprise scale.

Sr. SDET - Production Engineering

Microsoft Corporation - India

Jul 2007 - Dec 2014 Hyderabad, India

- Full production operations ownership for global Sales & Marketing platforms (US, EMEA, APAC): incident response, RCA, infrastructure administration (Windows/Linux), and 99.99% sustained uptime over 7 years supporting tens of thousands of users.

CERTIFICATIONS

AWS Certified Solutions Architect - Associate

Amazon Web Services - 2026

ITIL Certificate in IT Service Operations

AXELOS

Azure Solutions Architect Expert (AZ-305)

Microsoft - 2026

Professional Cloud Architect (GCP)

Google Cloud - 2026

Certified Kubernetes Application Developer (CKAD)
