PROFESSIONAL SUMMARY

Senior DevSecOps and AI & Data Platform Operations leader with 20+ years designing and operationalising production support operating models for enterprise-scale cloud, AI/ML, and Data Platform deliveries. Specialist in building L1/L2/L3 support frameworks, SLA/OLA governance models, and escalation architectures from scratch -- having stood up support organisations for Tier-1 banking clients (ADP, Charles Schwab, BMO, RBC) across 250+ applications. Proven track record reducing MTTR by 40%+ through AIOps-driven automated remediation, blameless RCA culture, and Chaos Engineering-based production hardening. Deep expertise in incident management tooling (ServiceNow, Dynatrace, Splunk, Prometheus/Grafana), multi-cloud observability (AWS, Azure), and AI/ML platform operations including MLOps and LLM production support.

CORE COMPETENCIES

DevSecOps Operating Model Design

L1 / L2 / L3 Support Framework

Incident Management & SLA/OLA Governance

Root Cause Analysis & Production Hardening

AI & Data Platform Operations

Transition to Support & Intake Governance

AIOps & Automated Remediation

KPI Dashboards & Stakeholder Governance

WORK EXPERIENCE

IRIS Software Sep 2020 -- Present

Sr. Specialist -- Cloud Practice & SRE Lead | India · Clients: ADP, Charles Schwab, BMO

- L1/L2/L3 Framework Design:** Designed and operationalised a three-tier production support framework at ADP -- defining RACI, ownership boundaries, on-call coverage model, severity classification tiers, and SLA-aligned escalation paths for a 35-engineer team supporting mission-critical HCM platforms across India, Canada, and the US.
- Incident Management & RCA:** Led incident response and postmortem programmes -- instituted blameless postmortem culture and Ansible-based automated remediation (Dynatrace-triggered), reducing MTTR by 40%+; drove production hardening via Chaos Engineering (Keptn), systematically eliminating recurring incidents.
- Greenfield Org Build:** Established Charles Schwab's 18-member Platform Engineering and Support function from zero in one quarter -- defined operating model, incident governance, SOP library, and Transition-to-Support intake criteria; improved release reliability to 99.9%.
- Governance & KPI Reporting:** Architected Cloud Platform Maturity Index (CPMI) and operational scorecards delivering DevSecOps KPI dashboards and governance forums for VP/C-suite stakeholders at ADP, Schwab, and BMO; tracked SLOs, error budgets, and incident trends with business-impact framing.
- AI & ML Platform Ops:** Deployed GenAI production assistants on AWS Bedrock for BMO -- established monitoring, operational runbooks, and escalation protocols for LLM-backed risk summarisation and Q&A pipelines; aligned to MLOps and production AI governance standards.
- Intake Model & Tooling:** Designed production-readiness intake governance for the modeas platform (200+ builds/hour) -- defined SLO baselining, hand-off standards, and ServiceNow + Dynatrace + Grafana automated alerting pipeline; eliminated 10,000+ manual ops hours annually.

IRIS Software -- Royal Bank of Canada Jun 2018 -- Sep 2020

Automation Technology Specialist | Toronto, Canada · Client: RBC Insurance & Wealth Management

- Governance Model:** Implemented DORA framework across RBC Wealth Management and Insurance -- established Deployment Frequency, Lead Time, Change Failure Rate, and MTTR as KPIs with executive-level dashboards and SLA/OLA governance forums.
- DevSecOps Standards & Compliance:** Governed enterprise DevSecOps and change management across 250+ applications, 60+ teams -- standardised deployment workflows, enforced SOX/GDPR compliance, and defined L3 escalation routing with closed-loop defect tracking.
- Shift-Left Security:** Enabled SAST/DAST/IAST scanning via SonarQube, Jenkins, UrbanCode, JFrog Artifactory, and Splunk-based alerting pipelines -- establishing shift-left DevSecOps standards across Java and multi-stack workloads.

IRIS Software Feb 2017 -- Jun 2018

Automation Architect | Toronto, Canada · Clients: Insurance & Capital Markets

- Led RPA practice -- automated 80+ applications across Java, NodeJS, Kafka, Salesforce, and Mainframe stacks; designed fault-tolerant Kubernetes/Helm deployment pipelines; pioneered Cognitive and Intelligent Process Automation (CPA/IPA) programmes.

TechMahindra Pvt. Ltd. Jul 2015 -- Feb 2017

Technology Manager | Noida, India · Client: Adobe

- Led zero-downtime business application migration during Adobe's data centre relocation; delivered SAP HANA upgrades and Informatica-to-SQL Server ETL re-engineering at enterprise scale.

Sr. SDET -- QA, Automation & Production Engineering | India

- Dual mandate as Production Engineering owner and Sr. SDET for Sales & Marketing platforms (US, EMEA, APAC): owned end-to-end incident response, RCA, reliability governance, and quality lifecycle -- sustaining 99.99% uptime over 7 years for tens of thousands of users.

KEY INITIATIVES

ADP SRE -- L1/L2/L3 Operating Model & Incident Governance DevSecOps Op-Model

Designed complete three-tier support framework -- RACI ownership model, severity tiers, SLA-aligned escalation, blameless postmortem cadence, and Dynatrace + Ansible automated remediation. MTTR reduced 40%+; 35-engineer org scaled to full maturity.
ServiceNow · Dynatrace · Prometheus · Grafana · Ansible · Python · ITIL

Charles Schwab -- Greenfield Platform Engineering & Support Build Greenfield Org Build

Built 18-member Platform Engineering and Support function from zero in one quarter -- operating model, RACI, SOP library, incident governance, and Transition-to-Support intake criteria. Release reliability improved to 99.9%.
Azure DevOps · Kubernetes · Helm · GitHub Actions · Splunk

BMO GenAI -- AI Platform Production Operations AI/ML Ops

Established AI/ML platform operations for GenAI production assistants on AWS Bedrock -- monitoring, incident runbooks, escalation protocols, and post-deployment standards for LLM-backed risk summarisation and Q&A pipelines.
AWS Bedrock · LLM Monitoring · ServiceNow · Python · MLOps

EDUCATION

Masters in Artificial Intelligence	Woolf University	2024
General Management Program (GMP)	ISB Hyderabad	2022
M.Sc in Computer Science	Osmania University	2002

CERTIFICATIONS

Certified SRE (iSRE)	iSRE	
ITIL® Certificate in IT Service Operations	ITIL / Axelos	
Microsoft Certified: Azure AI Engineer Associate (AI-102)	Microsoft	
Microsoft Certified: Azure Data Scientist Associate (DP-100)	Microsoft	
Microsoft Certified: Azure Solutions Architect Expert (AZ-305)	Microsoft	2026
AWS Certified Solutions Architect -- Associate (SAA-C01)	Amazon Web Services	2026
Certified Kubernetes Application Developer (CKAD)	CNCF	2025

SKILLS

ITSM & Incident: ServiceNow, ITIL, Incident/Problem/Change Management, Jira
Observability & AIOps: Dynatrace, Prometheus, Grafana, Splunk, MS Applnsights, Telegraf
Cloud: AWS, Microsoft Azure, Kubernetes, Docker, Helm, Terraform, Ansible
DevSecOps: SonarQube, JFrog Artifactory, SAST/DAST/IAST, Jenkins, Azure DevOps, GitHub Actions
AI & MLOps: GenAI (AWS Bedrock, Azure OpenAI), MLOps, AIOps, LLM Production Monitoring
Automation: Python, Ansible, Bash, PowerShell, CI/CD Pipelines
